*Moderate and Severe Disabilities* Belva C. Collins 2007 For undergraduate and graduate courses in Moderate and Severe Disabilities. *Moderate and Severe Disabilities: A Foundational Approach* is an exciting new text that provides a strong foundation for students, teachers, families, and service providers who work with persons with moderate and severe disabilities. Readers will review classic articles that provide a foundation for best practices, describes the evolution of practices over time, and demonstrates how best practices are built on a strong research base. Activities and performance-based assessments throughout the text allow the reader to demonstrate understanding of key concepts, appropriate programming, and issues that affect the lives of persons with moderate and severe disabilities. Topics covered in the text include inclusive practices in the school and community, curricular and functional assessment, the relationship of functional skills to general education core content, systematic instruction, longitudinal transition, self-determination, and basic human rights. An overview of the best practices for working with persons who have moderate and severe disabilities, this comprehensive book encourages readers to develop their own appreciation for these individuals, and demonstrates how to effectively collaborate with educators, families, and professionals in a variety of settings.

**Greatest Hits of Environmental Education** 1993 Descriptions of model environmental education projects that were funded by the Environmental Education Grant Program in California from 1983 through 1991. Projects were selected for grants by fitting specific environmental education criteria. The programs encourage efforts and innovations at the school district level to help students learn about their interrelationships with the natural and human environment, practice making decisions which enhance the quality of life and learn to conserve energy and other natural resources. Emphasis is placed on partnerships with local community resources and rethinking science curriculums. Grant projects were also encouraged to restructure curriculum to integrate learning across disciplines and ages. Projects are clearly coded with the environmental concepts emphasized, and include a description of the project, the grades appropriate for the activities, the year the grant was used and school contact information. Projects are designed for a range of ages, from kindergarten through high school.

**For Sale by Owner in California** George Devine 1997 Updated to reflect the most recent changes in the housing market, this third edition guide shows homeowners how to save thousands of dollars by selling their homes on their own. It provides essential contracts and legal forms and includes practical information about pricing, attracting buyers, minimizing tax, negotiating, the contract, escrow, and much more. Illustrated.
