Encyclopedia of Security Management John Fay 2007-05-02 The Encyclopedia of Security Management is a valuable guide for all security professionals, and an essential resource for those who need a reference work to support their continuing education. In keeping with the excellent standard set by the First Edition, the Second Edition is completely updated. The Second Edition also emphasizes topics not covered in the First Edition, particularly those relating to homeland security, terrorism, threats to national infrastructures (e.g., transportation, energy and agriculture) risk assessment, disaster mitigation and remediation, and weapons of mass destruction (chemical, biological, radiological, nuclear and explosives). Fay also maintains a strong focus on security measures required at special sites such as electric power, nuclear, gas and chemical plants; petroleum production and refining facilities; oil and gas pipelines; water treatment and distribution systems; bulk storage facilities; entertainment venues; apartment complexes and hotels; schools; hospitals; government buildings; and financial centers. The articles included in this edition also address protection of air, marine, rail, trucking and metropolitan transit systems. - Completely updated to include new information concerning homeland security and disaster management - Convenient new organization groups related articles for ease of use - Brings together the work of more than sixty of the world's top security experts

Total Security Management Pradeep Bajaj 2022-10-18 This book is the ultimate treatise for the Security professionals up to senior manager level. It has been aligned with Private Security Agencies (Regulation) Act-2005, Model Rules thereof, and National Occupation Standards for FOUR out of EIGHT Job Roles as identified Indian Sector Skill Council. These job roles comply with the NSQF guidelines, as such listed in National Qualification Register. These job roles are: - (a) MEPQ7101: Unarmed Security Guard (b) MEPQ7102: Armed Security Guard (c) MEPQ7103: Personal Security Officer (d) MEPQ7201: Security Supervisor Consolidation of the four job roles was possible due to many a common elements and Occupation Standards. The resultant product is economical and makes it suitable for the security staff employed in these four job roles. The book packs requisite knowledge and experience for Senior Managers/ Supervisors to manage/ supervise and mentor their staff, and Trainers to learn and train. The National Occupation Standards and legal aspects having a bearing on the private security sector have been the focus during development of its unique discourse. The book covers the training needs of approx. 75% of the personnel employed in Commercial and Industrial Security Sector. Performance Criteria and Knowledge Elements in the Qualification Pack and KLOs in Model Curriculums are global in nature, as such, as relevant globally, with exception of statutory aspects.

Industrial Security Management Harvey Burstein 1986-05-15 Industrial Security Management helps security directors and students get a better understanding of security functions: how they should be integrated into corporate operations and how they differ from law enforcement. Most books on the topic stress hardware rather than management techniques. This book offers readers detailed coverage on systems, procedures, and how to select and train competent line managers and supervisors. The updated edition includes new chapters on legal and insurance considerations and 3 new appendices covering important points in security checklists. For a full theoretical and practical discussion of security, Industrial Security Management offers readers everything they need to know.
