Bansenshûkai Yasutake Fujibayashi 2013-06-03

Dans le Japon traditionnel, l'art de la guerre ainsi que les rapports sociaux étaient officiellement régis par le bushidô, le code d'honneur des samourais ; mais le bushidô avait un pendant plus secret : l'art du ninjutsu. Les ninja, experts en espionnage et contre-espionnage, s'ils n'étaient pas tenus par le bushidô, n'en possédaient pas moins des valeurs et une tradition qui les distinguaient des simples voleurs. Leur art, invisible autant qu'indispensable, se transmettait au sein d'écoles secrètes et se fondait sur quelques rares manuels écrits en langage codé. Le Bansenshûkai, rédigé par le maître ninja Fujibashi Yasutake en 1676, est le plus monumental et le plus révééré de ces recueils. Resté secret jusqu'au XXe siècle, il traite des principes éthiques et spirituels du ninjutsu dans ses deux cahiers liminaires qui sont ici traduits, complétés par un autre grand classique de la littérature ninja ancienne, les 100 poèmes de Yoshimori. Avec le Shôninki, paru dans la même collection et également traduit et présenté par Axel Mazuer, le lecteur français a enfin à sa disposition les textes les plus fondamentaux de l'éthique ninja.

Ninjutsu Stephen Hayes 1984-04-01 This book offers self-defense enthusiasts a comprehensive guide to the mysterious and ancient art of the ninja, written by the Western world's foremost authority, Stephen Hayes. Profusely illustrated with more than 580 action photographs and diagrams, this book clearly shows the correct body positions and movements for mastering the ninja method. Techniques such as hitting the ground and rebounding safely, shifting and evading strikes and weapon hits, and applying natural body weapons and handheld tools for combat are covered in detail. The book's

physical conditioning program includes training exercises for increasing flexibility and building muscle strength, followed by footwork drills, reaction drills, counter techniques, and combat skills. Of equal importance to this ancient art is the spiritual training. Stephen Hayes provides all movement and meditation techniques essential to the ninja combat method. Stephen K. Hayes is the only American ever awarded the title of shidoshi ("teacher" in Japanese) and full teaching credentials in the art of ninjutsu. He has written eight books and numerous articles for Black Belt, Kick, Official Karate, and Ninja. He operates his own dojo ("school") of ninjutsu and spends his time between trips to the Far East, as a teacher, lecturer, and writer. He is the author of *Wisdom from the Ninja Village of the Cold Moon* and *The Mystic Arts of the Ninja* (both Contemporary Books).

Ninja Skills Antony Cummins 2018-03-13 The world's only illustrated guide to the real ninja teachings of historic Japan with original techniques presented in a highly accessible 'how-to' format The shadowy figure of the ninja—expert commando, secret agent, maverick who operates outside social norms—continues to exert fascination in the West, yet much of what is presented as ninja fact today is distorted or wrong. Drawing on the scrolls created by historical Japanese ninjas (or shinobi, as they were then known), this book offers the real ninja teachings in 150 easy-to-follow, illustrated lessons designed to draw contemporary students of ninja straight into the world of these skilled spy-commandos. The truth about the ninja is so much more complex and intriguing than the Hollywood clichés we know today. We may think, for example, of a ninja as being always garbed in black and fighting with 'throwing stars' but in fact, a ninja had clothes in different colours to serve as disguises for different times of day, and their arsenal of weaponry could include anything from poison, poison gas, pepper spray and fire-creating tools to swords, spears and knives (but no throwing stars). The 150 lessons in this book cover all the basics of ninja warfare, including clever ideas for infiltrating an enemy compound (from wearing 'silent sandals' to faking passes and passwords), tactics for hiding and retreat (in the racoon dog retreat, a ninja will crouch low

and halt, allowing the pursuer to collide with him at speed, whereupon the agent kills his enemy), and ways of crossing marshes and water (for example, with special shoes made of boards, or using a foldaway floating seat). The description is made all the more vivid by step-by-step photographs of the fighting techniques, diagrams outlining military tactics and beautiful samples of Japanese calligraphy.

Nin-jutsu Roland Habersetzer 2003 "LES NINJA SONT DES DIABLES..." L'Histoire a crédité le combattant Ninja, ce "guerrier de la nuit", de prouesses incroyables : marcher sur l'eau, grimper des parois verticales, apparaître et disparaître à volonté, voler... Domaine longtemps tenu secret, pourtant aux racines des arts martiaux japonais, le Nin-jutsu se révèle une incomparable technique de survie mais aussi une véritable philosophie de la vie. Car suivre l'enseignement du Nin-jutsu, c'est d'abord se trouver en accord avec les lois de l'Univers, savoir se conformer à ses règles, se fondre dans les éléments, se sentir parcelle de cette nature qu'il convient de déranger le moins possible, découvrir que "l'être" fait partie du "Grand Tout" et qu'être "autrement" ouvre d'autres horizons. Cela fut de tous temps l'enseignement puriste, la Voie du Ninpo. Est-on si loin de la préoccupation environnementale, de la sensibilité écologique et de la recherche d'identité intérieure qui motivent de plus en plus les sociétés de notre temps ?...

Illustrated Ninja Handbook Remigiusz Borda 2014-03-18 Learn to master ninjutsu techniques and the Budo warrior ethos with this informative and entertaining martial arts guide. Welcome to the secret world of the ninja master! The Illustrated Ninja Handbook is your ultimate guide to the esoteric knowledge and teachings of the ancient Japanese shinobi. It provides ninjutsu devotees with the first detailed understanding of this shadowy and mysterious martial art form. This handbook contains step-by-step instructions that allow you to master the 40 most devastating ninja fighting techniques. It was created with the blessing of legendary ninjutsu master Soke Masaaki Hatsumi, who taught for many generations in the Bujinkan School--generally recognized as the leading ninjutsu school in the

world. The Bujinkan Dojo encompasses nine separate ryu-ha or martial arts schools that are based in Japan and headed by Hatsumi. Bujinkan ninjas use both armed and unarmed fighting techniques, with weapons such as swords, bamboo shinai, and staffs. They also learn to defend themselves unarmed against weapons attacks. Author Remigiusz Borda studied and taught Bujinkan ninjutsu for many decades, and in this book presents the unique system created by Masaaki Hatsumi--the 34th Grandmaster and head of the Togakure-ryu Ninjutsu lineage. The Illustrated Ninja Handbook is based on hundreds of years of actual ninja combat experience and contains the traditional knowledge of the legendary Shinobi warrior clan who were instrumental in helping found the Tokugawa Shogunate.

Taijutsu Charles Daniel 2024-04-21 This book is the author's attempt to present what is probably the most important aspect of ninjutsu in print. Of course, philosophy is very important to the ninja, but since technique is a reflection of philosophy, careful study of this book should shed some light on the ideas that were used, and are still followed today, by the "Shadow Warrior." This book is, in many ways, a companion work to the author's "Traditional Ninja Weapons." However, the present work presents many new ideas about ninjutsu, which hopefully will help the reader gain a fuller understanding of this fascinating, albeit often misunderstood, martial art. In this work, the author has outlined a general overview of taijutsu while remaining as true as possible to the art's traditional form. There are, of course, many special cases that have not been included in the book because of space considerations. As always, the author would like to extend his thanks to the many instructors and training partners that have made this book possible.
