CAR's ECF-supported program has helped support crucial governance and transparency reforms, aided by improvements in the security environment. Nonetheless, fiscal pressures persist, as revenue mobilization has not kept pace with rising spending and debt service. Particularly, fuel supply constraints and subpar tax compliance have continued to weigh on revenue collection, while weak public financial management (PFM) and limited spending controls have hindered budget execution. Grants have materialized broadly as expected but remain well below pre-2020 levels, undermining debt sustainability. Staff finalized CAR's Country Engagement Strategy (CES) (Annex III),

outlining key fragility drivers and how IMF support can help address them.

Department of Customs, Nepal Nepal. Department of Customs. TRS Working Group 2017 Niger International Monetary Fund. African Dept. 2015-12-17 This paper discusses Niger's Sixth and Seventh Reviews

Under the Extended Credit Facility Arrangement, Request for Waivers of Nonobservance of Performance Criteria (PC), Request for Augmentation of Access, and Extension of the Current Arrangement. Niger's growth slowed in 2015 owing to lower agricultural and natural resource sectors activity. Over the medium term, real economic growth is expected to pick up as major projects in oil and mineral extraction come to fruition. The IMF staff supports the authorities' request for waivers for the unmet PC on domestic financing and domestic arrears repayments at end-December 2014, and that of domestic financing at end-June 2015.
