Hispanic Linguistics Alfonso Morales-Front 2020-05-13 This volume addresses a wide range of phenomena including intonation, restructuring, clitic climbing, aspectual structure, subject focus marking, code-switching, lenition, loanwords, and heritage learning that are central in Hispanic linguistics today. The authors approach these issues from a variety of recent theoretical approaches and innovative methodologies and make important contributions to our current understanding of language acquisition, theoretical and descriptive linguistics, and language contact. This collection of articles is a testimony to the breadth and degree of specialization of the scholarly interest in the field. The selection of refereed chapters included in this volume were originally presented at the 20th Hispanic Linguistics Symposium (HLS) hosted at Georgetown University, 2016. The book should be read with interest by scholars and graduate students hoping to gain insight into the issues currently debated in Hispanic Linguistics.

New Directions and Challenges in Languages and Cultures in Australia Giuseppe D’Orazi 2026-04-22 In this edited volume, D’Orazi, Hajek, Mullan, and Ohashi unveil the rich tapestry of language education across Australia’s diverse landscape. The contributors present various case studies and experimental practices that are transforming language learning in established European and Asian language programmes, as well as showcasing vital efforts to preserve and revitalise Aboriginal and Torres Strait Islander languages. First-hand accounts in the volume reveal how collaborative approaches are creating resilient, inclusive language programmes, and explore evidence-based strategies for sustainable language programme development. The insights into decolonised pedagogical approaches that honour Indigenous knowledge systems, the proposed frameworks for cross-institutional collaboration, and the solutions to common challenges faced by language educators in English-dominant countries everywhere, all provide a roadmap for innovation applicable beyond Australian borders. An essential resource for language and culture educators, researchers, practitioners, and policymakers from applied linguistics and language, this volume also offers substantive theoretical advancements while simultaneously providing innovative pedagogical frameworks for those dedicated to addressing diverse learner demographics.
