Encyclopedia of Language and Education

Nancy H. Hornberger 2007-11-20 In this second, fully revised edition, the 10 volume Encyclopedia of Language and Education offers the newest developments including two new volumes of research and scholarly content essential to the field of language teaching and learning in the age of globalization. In the selection of topics and contributors, the Encyclopedia reflects the depth of disciplinary knowledge, breadth of interdisciplinary perspective, and diversity of sociogeographic experience in the field. Throughout, there is an inclusion of contributions from non-English speaking and

non-western parts of the world, providing truly global coverage.

Selected Proceedings of the 36th Annual Conference on African Linguistics Olaoba F. Arasanyin 2006 This volume contains 25 papers selected from the 36th Annual Conference on African Linguistics (ACAL 36), which was held at Georgia Southern University in 2005. The theme of the conference was 'Shifting the Center of Africanism: Language, Economic Regionalism and Globalization,' which reflected Africa's struggle with its past as well as its gradual political maturation in a globalized world. Along with the plenary papers by Zaline Makini Roy-Campbell and Paul Tiyambe Zeleza, the papers in this volume are organized into sections on phonology, syntax, morpho-semantics, language in pedagogy, and language in social context.

Grammar by the Book Andrea Nava 2008

The Cumulative Book Index 1981 A world list of books in the English language.

Teacher Language Awareness Stephen Andrews 2007-08-09 Teacher Language Awareness (TLA) is an area of increasing interest to those involved in language teacher education. This book provides an introduction to the nature of TLA, assesses its impact upon teaching and its potential impact on learning. The book focuses specifically on grammar. It aims to encourage teachers and others involved in language education to think more deeply about the importance of TLA and to adopt a more principled approach to the planning of those parts of their programmes associated with it.

Subject Guide to Books in Print 1983

Success on your Certificate Course in English Language Teaching Caroline Brandt 2006-07-04
`Extremely comprehensive and well written in terms of style - accessible to the reader, but intelligent and expressing some fairly subtle

concepts. Would that more ELT practitioners could do the same!... Certainly a good read for those thinking about and also those engaged in initial training - or even post initial training stage' - Jenny Pugsley, Head of TESOL, Trinity College London 'It's essential reading whether you are simply curious about what is involved in training in ELT, need advice on choosing the right course, have already enrolled and want to make the most of your course, or are a new teacher just starting out. It's a book I wish I'd had when I was starting out in my ELT career, and that I wish had been available to many of the course participants I have tutored' - Lyn Strutt, ELT author and Chair of the British Council Families Association Each year, thousands of people all over the world take one of the hundreds of available short pre-service courses that lead to the award of a certificate in English Language Teaching (ELT) or Teaching English to Speakers of Other Languages (TESOL). Caroline Brandt's book is an invaluable

guide to anyone thinking of enrolling on one of these courses. With a clear and concise structure that follows your general interest in TESOL right through to the intricacies of the course itself, it can be used from initial research stages to final qualifications, and beyond. Brandt's decades of experience in this field across the globe shine through. Chapters include: -introducing English Language Teaching -becoming qualified -knowing your certificate course -getting started -learning -working together -being qualified. Throughout the book there are snapshots of students' experiences in their own words, and summaries of key points for you to take with you - whether into the next stage of learning or the next day's teaching. The chapters are stand alone resources as well as the building blocks to becoming a fully-qualified English Language teacher. The book is supported by a companion website, which provides quizzes to test understanding of each chapter, lesson plan proformas, a full glossary

and annotated website links.

The Cambridge Guide to Pedagogy and Practice in Second Language Teaching Jack

C. Richards 2012-01-31 This collection of original articles provides an overview of key issues and approaches in contemporary language teaching.

University English for Academic Purposes in China Xiaofei Rao 2018-07-07 This book uses an in-depth, phenomenological interview approach to explain the generational characteristics of today's Chinese university youths and the critical dispositions they believe indispensable in acquiring English as an academic language in and outside school settings. By presenting the authentic voices of the recruited participants, the book clarifies how English for academic purposes (EAP), as an emerging global phenomenon and a research-informed practice, enables and empowers them for conscious self-transformation and critical awareness development through language study. The book

also explores issues arising in the fields of general English language teaching as well as traditional and critical EAP, and discusses university English language learners' learning needs and rights. The book further promotes a dynamic and transformative University EAP pedagogy of particularity, practicality, and possibility moving from the oppression of language education to its liberation, and the increasing critical consciousness among the present and future university youths in a time of great social changes.

International Handbook of English Language Teaching Jim Cummins 2007-12-31 This two-volume handbook provides a comprehensive examination of policy, practice, research, and theory related to English language teaching (ELT) in international contexts. Nearly 70 chapters highlight the research foundation for the best practices, frameworks for policy decisions, and areas of consensus and controversy in the teaching and development of

English as a second and/or additional language for kindergarten through to adult speakers of languages other than English. In doing so it problematizes traditional dichotomies and challenges the very terms that provide the traditional foundations of the field. A wide range of terms has been used to refer to the key players involved in the teaching and learning of the English language and to the enterprise of English language teaching as a whole. At various times and in different contexts, the following labels have been used in countries where English is the dominant language to describe programs, learners, or teachers of English: English as a second language (ESL), English as an additional language (EAL), limited English proficient (LEP), and English language learners (ELL). In contexts where English is not the dominant language, the following terms have been used: English as a foreign language (EFL), English as an international language (EIL), and English as a lingua franca (ELF).

English Language Teaching Materials Nigel Harwood 2010-03-22 This volume presents a union of theoretical and practical pedagogical perspectives on materials design and development.

Forthcoming Books Rose Army 1981
Materials Evaluation and Design for Language Teaching Ian McGrath 2016-07-11

Teaching materials play a crucial role in teaching-learning. When these take the form of a textbook it is essential that it is carefully selected to meet both external requirements and the needs of the teachers, as well as allowing teacher to mediate between the textbook and the learners, adapting and supplementing the book as necessary. Providing a systematic approach to the selection and subsequent evaluation of coursebooks, this textbook gives practical advice on adaptation and supplementation, and beyond. Suggestions on systematising the process of materials development and on the use of learner-generated materials are included for teachers who prefer to prepare their own materials. With integrated and wide-ranging coverage of the topic, this is the ideal book for those studying or practising language teaching or applied linguistics. Key Features* Numerous examples * Interleaved tasks which can be utilised by an instructor* Extensive bibliography
