The Luxury Strategy Jean-Noël Kapferer 2012-09-03 Discover the secrets to successful luxury brand management with this bestselling guide written by two of the world's leading experts on luxury branding, Jean-Noël Kapferer and Vincent Bastien, providing a unique blueprint for luxury brands and companies. Having established itself as the definitive work on the essence of a luxury brand strategy, this book defines the differences between premium and luxury brands and products, analyzing the nature of true luxury brands and turning established marketing 'rules' upside-down. Written by two world experts on luxury branding, *The Luxury Strategy* provides the first rigorous blueprint for the effective management of luxury brands and companies at the highest level. This fully revised second edition of *The Luxury Strategy* explores the diversity of meanings of 'luxury' across different markets. It rationalizes those business models that have achieved profitability and unveils the original methods that were used to transform small family businesses such as Ferrari, Louis Vuitton, Cartier, Chanel, Armani, Gucci, and Ralph Lauren into profitable global brands. Now with a new section on marketing and selling luxury goods online and the impact of social networks and digital developments, this book has truly cemented its position as the authority on luxury strategy.

Italian Design Economy Amelia Scott 2025-02-27 *Italian Design Economy* explores the enduring allure of "Made in Italy," dissecting how Italy transformed inherent limitations into advantages, fostering globally competitive export sectors in fashion, furniture, and automotive design. It examines the vital role of regional industrial clusters, which enabled specialization and competitive intensity, tracing their evolution from artisan workshops to modern manufacturing ecosystems. Furthermore,

the book analyzes the impact of family-owned businesses, highlighting their critical function in preserving skills and adapting to market changes. The book argues that Italy's success stems from blending historical legacy, entrepreneurial structure, and aesthetic sensibility. The book's approach integrates economic analysis with design theory and cultural history, providing a holistic perspective. It challenges conventional economic models by positioning design as a strategic asset rather than just an aesthetic addition. The book progresses from introducing the "Italian Design Ecosystem" and its historical roots, to covering the development of specific sectors with success stories of iconic Italian brands, and then concentrates on the future, discussing the challenges of globalization and digital transformation. Ultimately, it offers valuable insights for policymakers and entrepreneurs aiming to emulate Italy's design-driven economic success.

Branding in Asia Paul Temporal 2000-02-10 "Paul Temporal shows how the fundamental principles of brand building are transferable to the Asian environment. A diverse collection of Asian caselets should convince us that the 21st century will see the emergence of more Asian regional and global megabrands." Professor John A Quelch Dean London Business School "Branding in Asia addresses an unusual situation in Asia - how is it that a region which has such high brand appreciation, produces few international brands of its own? The author's analysis of actual case studies, ranging from powerful global brands to local companies, illustrates his points clearly. This, coupled with a sensitive understanding of the cultural differences in the region makes it an excellent reference for everyone working with brands." Felix Herrnberger President BMW Asia Pte Ltd "Paul Temporal succinctly dissects the often mystical qualities that make up a successful brand. Too often Western insights, models and case studies are applied arbitrarily across the globe, it is so refreshing to see branding tackled from a purely Asian perspective. An invaluable reference book and eminently readable, the step-by-step style and volume of relevant cases and examples makes this a must have for any manager in Asia looking to embark on creating his own regional or global brand."
