**The Behavior Therapist** 1986

American Doctoral Dissertations 1975

*The Neuropsychology Handbook* Danny Wedding 1986 This Handbook is primarily designed to serve as a basic reference for the practicing clinical and behavioral neuropsychologist and as a text for graduate study. In Part I the contributors present an overview of human neuropsychology and focus attention on internal and cross-discipline issues. Also presented are a discussion of the neurological foundations of human neuropsychology including theories of brain functioning, selected neurological disorders, and the lateralization of cerebral functions. Part II is devoted to assessment procedures and includes discussion of the physical neurological examination, the Halstead-Reitan Neuropsychological Battery, the Luria-Nebraska Neuropsychology Battery, and the Kaufman Assessment battery for children. Part III describes treatment approaches and includes single-case design, behavioral neuropsychology, cognitive retraining, and family therapy. Part IV presents a variety of special populations, such as the head injured, alcoholics, the aged, pediatric patients, and school-aged children, in which human neuropsychology is making its greatest impact. Part V provides a discussion of some emerging areas of clinical practice such as prediction of everyday behavior, legal issues, and computer applications.

*Stroke Rehabilitation* Glen Gillen, EdD, OTR, FAOTA 2015-08-12 Learn to confidently manage the growing number of stroke rehabilitation clients with Gillen's *Stroke Rehabilitation: A Function-Based Approach*, 4th Edition. Using a holistic and multidisciplinary approach, this text remains the only comprehensive, evidence-based stroke rehabilitation resource for occupational therapists. The new edition has been extensively updated with the latest information, along with more evidence-based research added to every chapter. As with previous editions, this comprehensive reference uses an application-based method that integrates background medical information, samples of functionally based evaluations, and current treatment techniques and intervention strategies. Evidence-based clinical trials and outcome studies clearly outline the basis for stroke interventions. UNIQUE! Survivor's Perspectives help readers understand the stroke rehabilitation process from the client's point-of-view. UNIQUE! Case studies challenge readers to apply rehabilitation concepts to realistic scenarios. UNIQUE! A multidisciplinary approach highlights discipline-specific distinctions in stroke rehabilitation among occupation and physical therapists, physicians, and speech-language pathologists. Review questions in each chapter help readers assess their understanding of rehabilitation concepts. Key terms and chapter objectives at the beginning of each chapter help readers study more efficiently. Three new chapters broaden your understanding of stroke intervention in the areas of Using Technology to Improve Limb Function, Managing Speech and Language Deficits after Stroke, and Parenting after Stroke. Learning activities and interactive references on a companion Evolve Resources website help you review textbook content and locate additional information.

**Functional Visual Behavior in Adults** Michele Gentile 2005 Occupational therapy professionals need to understand the visual system because it is vulnerable to many dysfunctional skills, which can impact its effectiveness as an information-processing tool. Treatment of the visual system can lead to improvements in clients' muscle tone; movement; and visua-motor, visual-spatial, visual perceptual, and cognitive functioning. This new edition provides a framework to explore the complexities of the visual system and to further the collaboration of occupational therapists with eye care professionals to increase benefits to clients, because optimizing visual behavior can enhance motor function and quality of life.

Expert information covers anatomy, assessment tools, screening tools, and more, and is provided in a compact format that's easy to use on the go. - A quick-reference format uses illustrations, charts, and tables to organize key data. - Logical, easy-to-find sections are organized and based on the OT Framework covering evaluation, intervention, intervention plan, and service management, making it easy to find essential facts, procedures, and applications. - UNIQUE! Expert Advice tips and Pearls provide helpful pediatric and geriatric information that can be applied in the clinical setting. - Basic guidelines refer back to leading textbooks, Pedretti's Occupational Therapy and Physical Dysfunction Practice Skills for the Occupational Therapist Assistant, for more detailed information. - Coverage of all patient populations includes adult, pediatric, mental health, and neurological conditions. - Convenient index makes it easy to locate tools you need to evaluate or treat a specific region or area. - Pocket size and lay-flat binding provide convenience and portability for easy reference.

**Home Health Care Nursing** Ida Marie Martinson 2002 This New Edition of Home Health Care Nursing is a comprehensive and authoritative text for nurses working in the dynamic field of home health.

Administrative and clinical content is included, providing all the essential, detailed material that today's home health care nurse needs. It places home health nursing in the context of the health care system, discussing such administrative issues as the continuum of care, discharge planning, managed care, and reimbursement. It also presents the basic competencies of home health: assessment, nursing diagnosis, symptom control, nutritional support, and rehabilitation. Caring for clients throughout the lifespan and in a family context is emphasized, as well as the specialized care of clients with specific disorders most commonly seen in the home, such as pulmonary disease, cancer, AIDS, stroke, Alzheimer's disease, heart failure, and renal and genitourinary disorders. Finally, it identifies and discusses the professional challenges of ethics, stress, and research in home health nursing. Case studies are included throughout the book to help illustrate the concepts being discussed. Paediatric content added to each chapter of the Specific Disorders section as appropriate; helps guide the care of this population of home care clients. New chapters on Case Management and Home Health Care (chapter 2) and Managed Care (chapter 5). New chapters on Cultural Competency in Home Care (chapter 14) and Psychiatric Home Care Nursing (chapter 26). An extensively revised chapter on Research in Home Care.

Stroke Rehabilitation Glen Gillen 2004 This 2nd edition remains the only comprehensive evidence-based text on the Occupational Therapy management of the stroke patient. The book is based on the most up-to-date research on stroke rehabilitation and presents its content in a holistic fashion, combining aspects of background medical information, samples of functionally based evaluations, and treatment techniques and

interventions. There are chapters on specific functional aspects of living after stroke, such as driving, sexuality, mobility and gait, and self-care. Instructor resources are available; please contact your Elsevier sales representative for details. Case studies are featured in every chapter to help the reader understand how concepts apply to the real world. 2 chapters that feature the true stories of stroke victims, presenting occupational therapy situations from the point of view of the patient. Key terms, chapter objectives, and review questions help students better understand and remember important information. 7 new chapters make this text more comprehensive than ever! Psychological Aspects of Stroke Rehabilitation Improving Participation and Quality of Life Through Occupation The Task-Oriented Approach to Stroke Rehabilitation Approaches to Motor Control Dysfunction: An Evidence-Based Review Vestibular Rehabilitation and Stroke How Therapists Think: Exploring Clinician's Reasoning When Working With Clients Who Have Cognitive and Perceptual Problems Following Stroke A Survivor's Perspective II: Stroke Reflects the current terminology and categorization used by the WHO and the new AOTA Practice Framework so students will be equipped with the latest standards when they enter the workforce.
