Frostgrave: Blood Legacy Joseph A. McCullough 2021-12-09 In the days of ancient Felstad, vampires kept to the shadows, their small numbers no match for the power of the city's wizards. But when the cataclysm struck, the wizards were destroyed, while the deathless vampires went into a frozen hibernation. Now, as the city thaws, so too do its undead inhabitants. The masters of the night are rising again: reoccupying their hidden strongholds, reforming their old cabals, and finding new victims to serve as their thralls. The destruction of the old city has brought one other boon to the vampires - giant's blood. While giants used to live out of reach to the far north, in the intervening millennium, they have descended on the city in large numbers. Their blood is like an elixir to the vampires, filling them with strength and magical power. A new war is forming between these two ancient races, and once again, the wizards of Frostgrave are caught in the middle. This supplement for Frostgrave: Fantasy Wargames in the Frozen City presents greatly expanded information about the vampires and the giants that occupy the frozen ruins, including rules for vampiric magic and a breakdown of the different tribes of giants. Also included are rules for a new type of soldier, the giant-blooded. These huge men and women have the blood of giants running through their veins, granting them great strength unseen in normal men. Finally, the book contains a section on playing Frostgrave with high-level wizards and includes two mini-campaigns to challenge these experienced spellcasters.

Frostgrave: The Frostgrave Folio Joseph A. McCullough 2017-03-23 The Frostgrave Folio is the complete collection of all previously released Frostgrave mini-ebook supplements in one printed volume. This includes Hunt for the Golem, a three-scenario campaign in which the warbands hunt down a rogue golem, Sellsword, which introduces rules for experience-gaining captains to help lead warbands, Dark Alchemy, which expands the rules for potions and potion brewing, and Arcane Locations which gives additional options for bases and base upgrades. The book also includes a completely new mini-supplement, The Ravages of Time. Collecting nearly two years' worth of Frostgrave material, this collection is a necessary addition to any wizard's library.

Frostgrave: Ghost Archipelago Joseph A. McCullough 2017-10-19 The Ghost Archipelago has returned. A vast island chain, covered in the ruins of ancient civilizations, the Archipelago appears every few centuries, far out in the southern ocean. At such times, pirates, adventurers, wizards, and legendary heroes all descend upon the islands in the hopes of finding lost treasures and powerful artefacts. A few, drawn by the blood of their ancestors, search for the fabled Crystal Pool, whose waters grant abilities far beyond those of normal men. It is only the bravest, however, who venture into the islands, for they are filled with numerous deadly threats. Cannibal tribes, sorcerous snake-men, and poisonous water-beasts all inhabit the island ruins, guarding their treasure hordes and setting traps for the unwary. In this new wargame, set in the world of Frostgrave, players take on the role of Heritors, mighty warriors whose ancestors drank from the Crystal Pool. These Heritors lead their small, handpicked teams of spellcasters, rogues, and treasure hunters into the ever-shifting labyrinth of the Ghost Archipelago. Using the same rules system as Frostgrave, this standalone wargame focuses on heroes who draw on the power in their blood to perform nigh-impossible feats of strength and agility. This game also includes 30 spells drawn from five schools of magic, a host of soldier types, challenging scenarios, treasure tables, and a full bestiary of the most common creatures that inhabit the Lost Isles.

Frostgrave: Fireheart Joseph A. McCullough 2022-07-21 This supplement for Frostgrave provides players with new tools to build, animate, field, and face constructs in their games. In the glory days of Ancient Felstad, artisans competed to produce the most beautiful, the most functional, and the most enduring constructs. These living works of art could be seen everywhere in the city, fulfilling many of the day-to-day tasks that kept the magical metropolis running. They provided transportation and security, worked on construction and cleaning, exterminated vermin, butchered animals, and tended furnaces. Then came the cataclysm. The ice and snow not only buried and destroyed most of the constructs active in the city, but nearly wiped out the knowledge of their creation. Certainly, the constructs animated by the explorers of the Frozen City are crude in both form and function compared to what once existed. This supplement for Frostgrave: Fantasy Wargames in the Frozen City

provides a study of constructs, offering expanded rules for their creation, modification, and even re-animation. It examines enchanters' workshops, detailing new magic items and base modifications that aid in the animation process, and also includes a bestiary full of new constructs. Of course, much of the knowledge that was once lost still exists in the frozen ruins, so the book also features several scenarios set in the once-great factories where the art of construct creation reached its pinnacle.

Frostgrave: Mortal Enemies Joseph A. McCullough 2024-03-28 Enhance your Frostgrave campaigns with recurring villains that grow more powerful over time and give your wizards somewhere to hide with expanded rules for bases. On the violent and deadly streets of the Frozen City, feuds and vendettas are commonplace. Wizards may start out focused on discovery and exploration, fighting when necessary for survival or to win possession of some long-lost artefact or grimoire, but such battles can swiftly become intensely personal. Competitors become adversaries and, as the cycle of violence continues, some wizards lose sight of their original goals and focus their efforts on the elimination of their hated foes - their mortal enemies. This supplement for Frostgrave: Fantasy Wargames in the Frozen City presents rules for creating recurring villains in both competitive and solo campaigns. These characters are unique individuals who return over the course of a campaign to plague the players' wizards, gaining experience, recruiting allies, and becoming more deadly with each appearance. Against such threats, a wizard's base becomes as much hideout as headquarters, and an expanded range of options for enhancing bases is provided, as are rules for defending your own... and attacking those of your rivals!

Frostgrave Joseph A. McCullough 2015-07-20 In this fantasy skirmish wargame, wizards do battle amidst the frozen ruins of the ancient city of Felstad in the hopes of discovering the treasures of a fallen empire. Each player takes on the role of a wizard from one of ten schools of magic, and builds his band of followers. The wizard's apprentice will usually accompany his master and more than a dozen other henchmen types are available for hire, from lowly thugs to heavily armoured knights and stealthy assassins. Wizards can expand their magical knowledge by unlocking ancient secrets and can learn up to 80 different spells. As they gain power and wealth, wizards can also develop their headquarters on the outskirts of the city, turning one of a dozen different basic locations into bastions of their art, equipping them with alchemical laboratories, mystical forges, astronomical telescopes and other magical resources. While individual games of Frostgrave are quick and can easily be played in an hour or two, it is by connecting these games into an ongoing campaign, that players will find the most enjoyment. The scenarios given in the book are merely the beginning of the limitless, thrilling adventures that can be found amidst the ruins of the lost city.

Frostgrave: The Red King Joseph A. McCullough 2020-12-10 Fires rage throughout the Frozen City as an inhuman army pours out of the cracks between realities. In the distant past, a cabal of city elders sought to save their lives by making a pact with a demon prince... and now the Red King has come to collect what he is owed, claiming Frostgrave as his own. Many have already fled before the Red King's demonic hordes, while others seek to weather the storm, turning their bases into makeshift fortresses. The wizards of Frostgrave must choose - do they stand and fight, or do they abandon this great repository of mystical knowledge to the ravages of unearthly fire? The Red King is the first supplement designed for Frostgrave: Second Edition. In this sprawling, epic campaign, wizards will be pushed to their limits, fighting not only against one another and the perils of the Frozen City, but also against an invading army. As the Red King's power grows, the laws of magic and nature will start to bend. Can the wizards put aside their differences long enough to oppose this common foe, or will greed and mistrust doom them all?

Frostgrave: The Wildwoods Joseph A. McCullough 2023-06-22 This supplement brings a new dimension to games of Frostgrave, allowing players to lead expeditions into the wilderness north of the city, searching for undiscovered ruins and facing the perils of the Wildwoods. For years, spellcasters have flocked to the Frozen City, braving the perils of its ruins in the hunt for relics and forgotten magic. While the city still holds many such secrets, newly arrived wizards must delve deeper and fight harder to make their mark. A few turn from the city, seeking instead the remote settlements that surrounded ancient Felstad. Such expeditions are not without their own dangers, however - in the vast

forests of the Wildwoods, death lurks in the empty cookpot and torn waterskin, in the cold of night and the looming storm, and in the teeth and claws of the beast behind the next tree... This supplement for Frostgrave: Fantasy Wargames in the Frozen City takes players beyond the ruins with rules for running expeditions in search of secret places and forgotten treasures in the dark Wildwoods. New soldiers and magic items may improve wizards' chances of survival, but dwindling supplies, the hostile environment, and terrifying new creatures will push them to their limits in a range of scenarios set in these deep, foreboding forests.

Frostgrave: Sellsword Joseph A. McCullough 2016-01-20 *Sellsword* is a digital-only mini-expansion for Frostgrave: Fantasy Wargames in the Frozen City. This expansion gives wizards the option to hire a captain, a special type of soldier, to help lead their warbands. Unlike other soldiers in the game, captains may choose their own weapons, have a few special abilities known as 'tricks of the trade', and gain experience. Of course, such experience and versatility comes at a price, so captains are going to want more than the retainer given to most soldiers - they want a cut of the treasure! Also included in this expansion are three new scenarios designed to give soldiers more of a chance to shine. All feature some type of limitation or obstacle to spellcasting that will force wizards to think a bit more about how much they rely on their magic.

Wargaming Campaigns Henry Hyde 2022-07-20 An authoritative reference guide to building wargaming campaigns, featuring a full set of campaign rules, tips on creating maps, and more. Most miniature wargames take the form of simulating a single battle with the opponents either winning or losing and that's that until the next game. Such games can be a fun test of tactical skill, but it can be even more rewarding if they form part of a wider campaign. In a campaign, the players commanding the forces have to make the decisions at the strategic level that determine the context of any battles that occur. The outcome of these battles will, in turn, have strategic consequences for the ongoing campaign. Although campaigns can be very rewarding, many wargamers are deterred by the need to produce maps and devise mechanisms for strategic movement, Intelligence, logistics, recruiting reinforcements, keeping track of casualties etc. Henry Hyde's excellent book greatly eases this task with masses of sound advice, concrete suggestions and even a full set of campaign rules useful for any period. Whatever historical or fantasy setting you prefer, Henry shows that even simple campaigns can add extra fun to your gaming. Praise for Wargaming Campaigns "This big, thick tome contains everything you'd ever want to know about creating and running a wargame campaign." —Historical Miniatures Gaming Society

Frostgrave: Thaw of the Lich Lord Joseph A. McCullough 2015-11-20 A campaign supplement for Frostgrave, offering new scenarios, an expanded bestiary and additional warband options.

Frostgrave: Forgotten Pacts Joseph A. McCullough 2016-11-17 In this supplement for Frostgrave, players lead their warbands into the northern reaches of the city, exploring the ruined temples of the Frozen City to search for the lost secrets of evocation - the art of summoning demons. While the lure of such knowledge is great, few wizards have ventured into this region as it is overrun by barbaric northern tribesmen who have descended from the hills in their own search for treasure. Marking themselves with demonic sigils, many of these barbarians have aligned with ancient powers discovered amongst the temples. Along with a host of new scenarios focusing on the exploration of the temples, the book also contains new treasures, spells, soldiers, and creatures that can be

found amongst the ruins.

Frostgrave: Perilous Dark Joseph A. McCullough 2019-10-31 There are many tales of the Frozen City, and not all of them tell of battles between rival wizards. Often, the greatest adventures are those that pit a wizard and his trusty warband against the myriad perils found amidst the ruins of Felstad. This new supplement for Frostgrave presents rules for playing solo and cooperative games in which the focus shifts from the feuds of wizards to exploring the city, unlocking its mysteries... and surviving what is discovered. With guidelines for scaling game difficulty, dungeon crawls, monster generation, and more, as well as ten scenarios demonstrating these options, this volume offers players everything they need to venture alone - or with allies - into Frostgrave. Why should wizards fight amongst themselves? There is plenty of treasure for all and the Frozen City is enemy enough!

Dragon Rampant Daniel Mersey 2015-12-20 Whether you're a nameless Dark Lord looking to conquer the known world, a Champion of Light holding out against the forces of evil or a Northern barbarian facing claimants to a stolen throne, *Dragon Rampant* allows you to bring those battles to the tabletop. Developed from the popular *Lion Rampant* system, *Dragon Rampant* is a standalone wargame that recreates the great battles of Fantasy fiction. Scenarios, army lists, and full rules for magic and monsters give players the opportunity to command unruly orc warbands, raise armies of the undead, campaign across an antediluvian world as the warchief of a barbarian tribe, or exploit the power of mighty creatures and extraordinary sorcery. An army usually consists of 6-8 units comprised of 6-12 individually based figures. These small units move and fight independently, assuming that they follow your orders rather than just doing their own thing. Command and control is just as important on the battlefield as the power of a troll chieftain or the magic of an archmage.

Frostgrave: The Maze of Malcor Joseph A. McCullough 2018-06-28 Part magical university, part museum, part tourist attraction, the great Collegium of Artistry had flourished in Felstad's final days. Under the leadership of the seemingly immortal Malcor the Mad, the vast complex expanded, with new wings being built wherever they would fit, including up and down the rock face, and even buried within the mountain itself. Visitors called it one of the architectural wonders of the world; the students, who often got lost in its endless tunnels, simply called it 'The Maze'. With a titanic crash, an immense ice shelf tears free from the mountains that that loom above Frostgrave, revealing the lost Collegium, and the race for its secrets begins. The Maze is known to have contained many rare and unique treasures, and who knows what may have survived... This new, expanded supplement for Frostgrave contains a host of new adventures, treasures, and creatures to challenge players. It also includes its own, unique campaign and experience system, as well as information about several of the mythical lost schools of magic.
