**Opening Originals** Daniel Lowinger 2015-10-02 Original Opening Ideas Sound – and Dangerous! Opening Originals focuses on both sound and dangerous opening ideas that have escaped wide notice. In some cases, they are artifacts of the past, too soon discarded and without good reason; in others, they are home-cooking, and may anticipate the future of theoretical developments. In all cases, the author’s explanations are concept-based, and little memorization is required. “Daniel Lowinger offers his readers a select menu of opening ideas from which you can pick and choose. Whether you are looking for new ideas to add to your repertoire in 1.e4, 1.d4 or 1.c4 openings; for White or for Black; sharp or quiet lines – this book has something for you! “[He looks] into lines that are not the most common, backing his ideas with thorough research and independent analysis.” – From the Foreword by Danish Grandmaster Lars Bo Hansen American master Dan Lowinger is an active player, coach and teacher. He is the author of the highly acclaimed “The 3...Qd8 Scandinavian.” He lives with his wife in Alexandria, Virginia.

**The Hedgehog** Sergey Kasparov 2017-12-05 An understanding of Hedgehog structures is an essential component in any chessplayer’s knowledge. These structures arise when the black c-pawn is exchanged early on for the white d-pawn (as in the Sicilian Defence). White then adopts a formation with pawns on c4 and e4 and Black curls up in a Hedgehog formation with pawns on a6, b6, d6 and e6. These structures are important as they can arise from an extraordinary variety of openings including the Sicilian Defence, the English Opening and the Queen’s Indian Defence. Play is usually highly intricate with White hoping to exploit the natural space advantage while Black remains solid and looks to break out of his or her carapace with the classical thrusts ...b7-b5 and ...d7-d5. • Everything you need to know about the Hedgehog systems. • The structure emphasizes plans and strategies. • Written by an expert on the opening.
