*Last Stand on Bataan* Christopher L. Kolakowski 2016-03-14 In the opening days of World War II, a joint U.S.-Filipino army fought desperately to defend Manila Bay and the Philippines against a Japanese invasion. Much of the five-month campaign was waged on the Bataan Peninsula and Corregidor Island. Despite dwindling supplies and dim prospects for support, the garrison held out as long as possible and significantly delayed the Japanese timetable for conquest in the Pacific. In the end, the Japanese forced the largest capitulation in U.S. military history. The defenders were hailed as heroes and the legacy of their determined resistance marks the Philippines today. Drawing on accounts from American and Filipino participants and archival sources, this book chronicles these critical months of the Pacific War, from the first air strikes to the fall of Bataan and Corregidor.

**Japan's Imperial Army** Edward J. Drea 2009 The first comprehensive English-language history of the Japanese imperial army, based largely on Japanese-language sources. Traces the origins, evolution, and impact of the army as an engine of Japan's regional and global ambitions and as a catalyst for the militarization of its homeland.

1942 Winston Groom 2007-12-01 America's first year in World War II, chronicled in this "page-turner" by the Pulitzer Prize-nominated author of *Forrest Gump* and *The Generals* ( *Publishers Weekly*). On December 7, 1941, an unexpected attack on American territory pulled an unprepared

country into a terrifying new brand of warfare. To the generation of Americans who lived through it, the Second World War was the defining event of the twentieth century, and the defining moments of that war were played out in the year 1942. This account covers the Allies' relentless defeats as the Axis overran most of Europe, North Africa, and the Far East. But by midyear the tide began to turn. The United States finally went on the offensive in the Pacific. In the West, the British defeated Rommel's panzer divisions at El Alamein while the US Army began to push the Germans out of North Africa. By the year's end, the smell of victory was in the air. 1942, told with Winston Groom's accomplished storyteller's eye, allows us into the admirals' strategy rooms, onto the battlefronts, and into the heart of a nation at war. "When not drawing in readers with the narrative, Groom is impressing them with his masterful analyses." — *The Atlanta Journal-Constitution* "Groom has done an artful job of blending the many stories of 1942." — *The Anniston Star*

**Atomic Salvation** Doctor Tom Lewis 2020-07-08 So did not the atomic weapons bring about a great peace? Since the initial grateful acknowledgement of the success of the A-bomb attacks in ending World War II, there has been a steady reversal of opinion and sentiment: from a first hearty appreciation to a condemnation by many, of the United States for its actions. *Atomic Salvation* investigates the full situation of the times to a previously unplumbed depth. It examines documents from both Japanese and Allied sources, but it uses logical in-depth analysis to extend beyond the mere recounting of statistics. It charts the full extent of the possible casualties on both sides if a conventional assault akin to D-Day had gone ahead. The work is concerned solely with the military necessity to use the bombs, but it also investigates why that necessity has been increasingly challenged over the successive decades. Controversially, the book shows that the Japanese nation would have lost

many millions of their people - likely around 28 million - if the nation had been attacked in the manner by which Germany was defeated: by amphibious assault; artillery and air attacks preceding infantry insertion, and finally by subduing the last of the defenders of the enemy capital. From the other side, the book investigates the enormous political pressure placed on America as a result of their military situation. The USA's Truman Administration had little choice but to use the new weapon given the more than a million deaths Allied forces would undoubtedly have suffered through conventional assault. Through investigation of reactions then and since, Atomic Salvation charts reaction to the bombings. It looks briefly at a range of reactions through the decades and shows that there has been relentless pressure on the world to condemn what at the time was seen as the best, and the only, military solution to end the war. Never has such an exhaustive analysis been made of the necessity behind bringing World War II to a halt.

**Michigan Academician** 1986

Military Tribunals and Presidential Power Louis Fisher 2005 Offers coverage of wartime extra-legal courts. Focusing on those periods when the Constitution and civil liberties have been most severely tested by threats to national security, Fisher critiques tribunals called during the presidencies of Washington, Madison, Jackson, Lincoln, Andrew Johnson, Wilson, Franklin Roosevelt, and Truman.

**Eagle Against the Sun** Ronald H. Spector 2020-11-03 "The best book by far on the Pacific War" (The New York Times Book Review), this classic one-volume history of World War II in the Pacific draws on declassified intelligence files; British, American, and Japanese archival material; and military memoirs to provide a stunning and complete history of the conflict. This "superbly readable, insightful, gripping" (Washington Post Book World) contribution to WWII history combines impeccable research with electrifying detail and offers provocative interpretations of this brutal forty-four-month struggle. Author and historian Ronald H. Spector reassesses US and Japanese strategy and shows that the dual advance across the Pacific by MacArthur and Nimitz

was more a pragmatic solution to bureaucratic, doctrinal, and public relations problems facing the Army and Navy than a strategic calculation. He also argues that Japan made its fatal error not in the Midway campaign but in abandoning its offensive strategy after that defeat and allowing itself to be drawn into a war of attrition. Spector skillfully takes us from top-secret strategy meetings in Washington, London, and Tokyo to distant beaches and remote Asian jungles with battle-weary GIs. He reveals that the US had secret plans to wage unrestricted submarine warfare against Japan months before Pearl Harbor and shows that MacArthur and his commanders ignored important intercepts of Japanese messages that would have saved thousands of lives in Papua and Leyte. Throughout, Spector contends that American decisions in the Pacific War were shaped more often by the struggles between the British and the Americans, and between the Army and the Navy, than by strategic considerations. Spector vividly recreates the major battles, little-known campaigns, and unfamiliar events leading up to the deadliest air raid ever, adding a new dimension to our understanding of the American war in the Pacific and the people and forces that determined its outcome.

*The Atlantic* 1971

**Rising Sun** John Toland 2011-08-01 This magnificent Pulitzer Prize-winning history, told primarily from the Japanese viewpoint, traces the dramatic fortunes of the Empire of the Sun from the invasion of Manchuria to the dropping of the atomic bombs, demolishing many myths surrounding this catastrophic conflict. Why did the dawn attack on Pearl Harbor occur? Was it inevitable? Was the Emperor a puppet or a warmonger? And, finally, what inspired the barbaric actions of those who fought, and who speak here of the unspeakable - murder, cannibalism and desertion? 'Unbelievably rich ... Readable and exciting' Newsweek 'The most readable, yet informative account of the Pacific War' Chicago Sunday Times

*Reading, Then Writing* Thayne K. Anderson 1992 This combined rhetoric and thematic reader aims to provide everything needed for a freshman composition class orientated towards research writing. The initial section

focuses on developing writing skills and critical thinking by concentrating on specific methods of textual analysis. The subsequent section is devoted to the research paper, which includes a sample paper. Finally, the third part is an anthology of over 50 essays, organized around specific themes, which provide sources for researched papers.

**Hellships Down** Michael Sturma 2021-03-18 On 12 September 1944, a wolfpack of U.S. submarines attacked the Japanese convoy HI-72 in the South China Sea. Among the ships sunk were two carrying Allied prisoners of war. Men who had already endured the trials of Japanese captivity faced a renewed struggle for survival at sea. This book tells the broader story of the HI-72 convoy through the stories of two survivors: Arthur Bancroft, who was rescued by an American submarine, and Charles "Rowley" Richards, who was rescued by the Japanese. The story of these men represents the thousands of Allied POWs who suffered not only the atrocious conditions of these Japanese hellships, but also the terror of friendly fire from their own side's submarines. For the first time, the personal, political and legal aftermath of these men's experiences is fully detailed. At its heart, this is a story of survival. Charting the survivors' fates from rescue to their attempts at retribution, this book reveals the trauma that continued long after the war was over.

**The Rising Sun** John Toland 2003-05-27 “[The Rising Sun] is quite possibly the most readable, yet informative account of the Pacific war.”—Chicago Sun-Times This Pulitzer Prize-winning history of World War II chronicles the dramatic rise and fall of the Japanese empire, from the invasion of Manchuria and China to the atomic bombing of Hiroshima and Nagasaki. Told from the Japanese perspective, *The Rising Sun* is, in the author’s words, “a factual saga of people caught up in the flood of the most overwhelming war of mankind, told as it happened—muddled, ennobling, disgraceful, frustrating, full of paradox.” In weaving together the historical facts and human drama leading up to and culminating in the war in the Pacific, Toland crafts a riveting and unbiased narrative history. In his Foreword, Toland says that if we are to draw any conclusion from *The Rising Sun*, it is “that there are no simple lessons in history, that it is human nature that repeats itself, not history.”

“Unbelievably rich . . . readable and exciting . . . The best parts of [Toland’s] book are not the battle scenes but the intimate view he gives of the highest reaches of Tokyo politics.”—Newsweek

**The Rising Sun** John Toland 2011-10-04 A chronicle of the World War II rise and fall of the Japanese empire, from the invasion of Manchuria and China to the atomic bombing of Hiroshima and Nagasaki, from the Japanese perspective.
