The dime, in United States usage, is a ten-cent coin, one tenth of a United States dollar, labeled formally as "one dime". The denomination was first authorized by the Coinage Act of 1792. "Dime" is based on the Latin word "decimus," meaning "one tenth." The French used the word "disme" in the 1500s when they came up with the idea of money divided into ten parts. The United States dime, representing one-tenth of a dollar, serves as a cornerstone of the nation's decimal currency system and a microcosm of American numismatic history.
