## **The Church of Jerusalem and Its Liturgy in the First Five Centuries** Fr. Aziz Halaweh

2020-07-01 This book describes the Church of Jerusalem, as the mother of all Churches, and its liturgy in the beginnings of Christianity. The main objective of this research is to find, in the primary sources (as the pilgrim Egeria, St. Cyril of Jerusalem, the Armenian and the Georgian Lectionaries), the original elements of the Christian liturgy of the early Church of Jerusalem, in the first five centuries, and to collect the various scattered pieces. The author clarifies the image, and reconstructs, as far as possible, the historical-liturgical picture. By this book we will discover how much the other liturgical traditions of various churches, especially the Church of Rome, have copied the Jerusalemite tradition. The detailed description of the Jerusalemite liturgy, especially for the feasts of the liturgical year, offers us a vivid picture of Jerusalem's unique role in Christian devotion and the mysterious connection between the Christian faith and the land of biblical history. The presentation of the anaphora of St. James will enlighten our understanding of the Eucharistic prayer in all the liturgical traditions, especially Syriac, Byzantine and Roman.

**testi di Qumran** Gregor Geiger

2025-07-09T00:00:00+02:00 La scoperta dei testi di Qumran e di altri siti del Deserto di Giuda ha contribuito enormemente alla conoscenza dell'ambiente in cui sono stati creati i testi vetero-testamentari tardivi e del

Nuovo Testamento. Quelli di Qumran comprendono frammenti di circa 900 manoscritti, in gran parte molto lacunosi. Per circa un terzo si tratta di manoscritti biblici, per un altro terzo di testi composti da una "setta" ebraica (probabilmente gli Esseni), mentre i restanti sono scritti religiosi di varia provenienza. Quelli scoperti in altri siti del Deserto di Giuda sono invece più eterogenei. Rispecchiano per lo più la vita quotidiana o la vita in tempi di rivolta. Questo dizionario essenziale consente l'accesso ai testi a chi ha una conoscenza elementare di dette lingue. Contiene il vocabolario completo, inclusi i nomi propri e le abbreviazioni, di tutti i testi pubblicati non biblici - ebraici, aramaici, nabatei, greci e cristiano-palestinesi. Il dizionario è diviso in tre parti: ebraico, aramaico (compresi il nabateo e l'aramaico cristiano-palestinese) e greco. In aggiunta ai singoli lemmi e alla loro traduzione italiana, include rimandi all'uso delle parole nella Bibbia e in testi ebraici e aramaici post-biblici. Questi rimandi potranno servire sia come aiuto per la lettura dei manoscritti non vocalizzati sia per la ricerca di ulteriori informazioni sulle singole parole. *A Guide to Biblical Research* Stanisław Bazyliński 2009 The present volume presents important and useful information to students doing exegetical research in Sacred Scripture. The Guide is arranged in six chapters, which endeavor to respond to students' questions regarding: the primary sources of the biblical text (chapter one), a survey of available biblical bibliographical research tools (chapter two), a panorama of reference works, such as concordances, synopses, lexicons, grammars, etc., and an essential bibliography on exegetical methods (chapter three). Particular attention is given to the literary types occurring in the Bible (chapter four), followed by some suggestions in organizing the writing of an exegetical study (chapter five). Finally, some practical rules are provided on how to make accurate bibliographic citations in footnotes and in a bibliography (chapter six).
