Chasing Tone Jim Reilly 2023-08-15 Prince, Pink Floyd, Metallica, Toto, James Taylor, Keith Richards—these stars and thousands of others all owe a debt of gratitude to Rob Turner who revolutionized the electric guitar and bass. *Chasing Tone* tells Rob Turner's story from humble beginnings rewiring his father's transistor radio components to founding EMG and, finally, to the world's largest concert stages. Jim Reilly provides a wealth of fascinating insights by weaving together many exclusive interviews with top artists and colleagues, including James Hetfield, Kirk Hammett, and Robert Trujillo of Metallica; legendary session musician Leland Sklar; Vernon Reid of Living Colour; Victor Wooten; Béla Fleck; Nili Brosh; Jim Root of Slipknot; and guitar builders Mike McGuire and John Carruthers. Along the way, Reilly not only sheds light on the history of the electric guitar and bass and how EMG pickups forever altered their course but also explores the elusive relationship between builder and creator, showing how these artists found their sound. This book takes a deep dive into the creative process while providing a history of popular music told from a side of the stage previously underexplored.

Rock Guitar Virtuosos Jan-Peter Herbst 2023-12-21 The guitar has been an integral part of popular music and mainstream culture for many decades and in many places of the world. This Element examines the development and current state of virtuosic rock guitar in terms of playing, technology, and culture. Supported by technological advances such as extended-range guitars, virtuosos in the twenty-first century are exploring ways to expand standard playing techniques in a climate where ever-higher levels of perfection are expected. As musician-entrepreneurs, contemporary rock guitar virtuosos record, produce, and market their music themselves; operate equipment companies; and sell merchandise, tablature, and lessons online. For their social media channels, they regularly create videos and interact with their followers while having to balance building their tribe and finding the time to develop their craft to stay competitive. For a virtuoso, working situations have changed considerably since the last century; the aloof rock star has been replaced by the approachable virtuoso-guitarist-composer-innovator-producer-promoter-YouTuber-teacher-entrepreneur.

The New Guitarscape in Critical Theory, Cultural Practice and Musical Performance Kevin Dawe 2017-07-05 In *The New Guitarscape*, Kevin Dawe argues for a re-assessment of guitar studies in the light of more recent musical, social, cultural and technological developments that have taken place around the instrument. The author considers that a detailed study of the guitar in both contemporary and cross-cultural perspectives is now absolutely essential and that such a study must also include discussion of a wide range of theoretical issues, literature, musical cultures and technologies as they come to bear upon the instrument. Dawe presents a synthesis of previous work on the guitar,

but also expands the terms by which the guitar might be studied. Moreover, in order to understand the properties and potential of the guitar as an agent of music, culture and society, the author draws from studies in science and technology, design theory, material culture, cognition, sensual culture, gender and sexuality, power and agency, ethnography (real and virtual) and globalization. Dawe presents the guitar as an instrument of scientific investigation and part of the technology of globalization, created and disseminated through corporate culture and cottage industry, held close to the body but taken away from the body in cyberspace, and involved in an enormous variety of cultural interactions and political exchanges in many different contexts around the world. In an effort to understand the significance and meaning of the guitar in the lives of those who may be seen to be closest to it, as well as providing a critically-informed discussion of various approaches to guitar performance, technologies and techniques, the book includes discussion of the work of a wide range of guitarists, including Robert Fripp, Kamala Shankar, Newton Faulkner, Lionel Loueke, Sharon Isbin, Steve Vai, Bob Brozman, Kaki King, Fred Frith, John 5, Jennifer Batten, Guthrie Govan, Dominic Frasca, I Wayan Balawan, Vicki Genfan and Hasan Cihatter.
