**Potential questions to elicit nominees' views on agencies'
management challenges** 2001 The U.S. Department of Agriculture
(USDA) faces critical challenges in supporting the profitability and
productivity of farming, protecting the environment, ensuring food
safety, improving the well-being of rural America, promoting the
domestic marketing and the export of food and farm products, and
providing food assistance to Americans in need. USDA has taken a
number of actions to address its program and management weaknesses,
including actions taken to improve the farm loan program. However,
there are still a number of challenges that USDA faces in carrying out its
responsibilities. Congress has a key role in ensuring that USDA
effectively addresses these challenges. The challenges are listed below
and are discussed in more detail in the GAO Performance and
Accountability Series report entitled Major Management Challenges and
Program Risks: Department of Agriculture. 2 Additional information
about program and management challenges at USDA and other federal
agencies is available on GAO's Transition Web site at

Management Challenges** David M. Walker 2001-09 Provides potential
questions that U.S. Senate committees of jurisdiction could use to help
determine the leadership & management experience & capabilities of
individuals nominated to selected leadership positions in major executive
branch agencies. These questions are based on major management

challenges & program risks. Enclosures highlight the major management challenges & program risks, a list of potential questions, & a contact for each agency.
