College Textbooks Melissa

Emrey-Arras 2013-07-11 The

rising costs of postsecondary

education present challenges

to maintaining college

affordability. Textbooks are an

important factor students need

to consider when calculating

the overall cost of attending

college. In an effort to ensure

that faculty and students have

sufficient information about

textbooks, Congress included

requirements in the Higher

Education Opportunity Act

(HEOA) concerning publisher

and school disclosures, as well

as publisher provision of

individual course materials.

This report addresses (1) the

efforts publishers have made to

provide textbook information to

faculty and make bundled

materials available for sale

individually, and how these

practices have informed faculty

selection of course materials;

and (2) the extent to which

postsecondary schools have

provided students and college

bookstores access to textbook

information, and what the

resulting costs and benefits

have been. Tables and figures.

A Multimodal and

Ethnographic Approach to Textbook Discourse Germán

Canale 2022-08-30 This book

offers a new framework for analysing textbook discourse, bridging the gap between contemporary ethnographic approaches and multimodality for a contextually sensitive approach which considers the multiplicity of multimodal resources involved in the production and use of textbooks. The volume makes the case for textbook discourse studies to go beyond studies of textual representation and critically consider the ways in which textbook discourse is situated within wider social practices. Each chapter considers a different social semiotic practice in which textbook and textbook discourse is involved: representation,

communication, interaction, learning, and recontextualization. In bringing together this work with contemporary ethnography scholarship, the book offers a comprehensive toolkit for further research on textbook discourse and pushes the field forward into new directions. This innovative book will be of particular interest to students and scholars in discourse analysis, multimodality, social semiotics, language and communication, and curriculum studies.
