The Big Book of Beastly Mispronunciations

Charles Harrington Elster 2006 The definitive pronouncement on more than 1,500 of our most commonly mispronounced words. From the language maven Charles Harrington Elster comes an authoritative and unapologetically opinionated look at American speech. As Elster points out, there is no sewer in connoisseur, no dip in diphthong, and no pronoun in pronunciation. The culmination of twenty years of observation and study, *The Big Book of Beastly Mispronunciations* is more than just a pronunciation guide. Elster discusses past and present usage, alternatives, analogies, and tendencies and offers plenty of advice, none of it objective. Whether you are adamant or ambivalent about the spoken word, Elster arms you with the information you need to decide what is acceptable for you. *The Big Book of Beastly Mispronunciations* has now been expanded and revised and features nearly 200 new words, including: al-Qaeda bruschetta commensurate coup de grace curriculum vita exacerbate gigabyte hara-kiri machismo Muslim Niger Pinochet Pulitzer sorbet tinnitus w (as in www-dot) and many, many more. Charles Harrington Elster is the pronunciation editor of *Black's Law Dictionary* and the author of various books about language, including *Verbal Advantage*, *There's a Word for It*, and *What in the Word?* He has been a guest columnist on language for the *Boston Globe* and the *New York Times Magazine* and a commentator on NPR and hundreds of radio shows around the country.

Breaking and Shaping Beastly Bodies

Aleksander Pluskowski 2007 An important human trait is our inclination to develop complex relationships with numerous other species. In the great majority of cases however, these mutualistic relationships involve a pair of species, whose co-evolution has been achieved through behavioural adaptation driving positive selection pressures. Humans go a step further, opportunistically and, it sometimes seems, almost arbitrarily elaborating relationships with many other species, whether through domestication, pet-keeping, taming for menageries, deifying, pest-control, conserving iconic species, or recruiting as mascots. When we consider medieval attitudes to animals we are tackling a fundamentally human, and distinctly idiosyncratic, behavioural trait. The sixteen papers presented here investigate animals from zoological, anthropological, artistic and economic perspectives, within the context of the medieval world.

2011-02-08 Love is never ugly Now a major motion picture starring Vanessa Hudgens and Alex Pettyfer I am a beast. A beast! Not quite wolf or bear, gorilla or dog but a horrible new creature who walks upright. I am a monster. You think I'm talking fairy tales? No way. The place is New York City. The time is now. It's no deformity, no disease. And I'll stay this way forever—ruined—unless I can break the spell. Yes, the spell, the one the witch in my English class cast on me. Why did she turn me into a beast who hides by day and prowls by night? I'll tell you. I'll tell you how I used to be Kyle Kingsbury, the guy you wished you were, with money, perfect looks, and the perfect life. And then, I'll tell you how I became perfectly . . . beastly.
