Culture, Literature and Migration Ali Tilbe 2019
Culture, Literature and Migration gives us a unique insight into the emotional and physical experiences of immigrants. By shedding light on the challenges of the plight, the chapters in this book raise awareness of the global scale of the crisis and reduces hostility towards the displaced as a result of a better understanding of that which is often left unspoken of and unheard of. The distinctiveness of voluntary and involuntary immigration is brought forward and contextualized in order to emphasise the trauma of forced departure and the often forgotten psychological complications of the host nation. With such matters arising, there is an ultimate return to notions of hegemony, colonialism, otherness, hybridity and citizenship. New understandings of identity, nationalism and multiculturalism are explored in context of transnationalism and multiculturalism. Culture, Literature and Migration critically analyzes the transformation of the immigrant and highlights the importance of hope and the power of inclusiveness in a fragmented global environment.
