Next-Generation Video Coding and Streaming Benny Bing 2015-10-01 Reviews the new High Efficiency Video Coding (HEVC) standard and advancements in adaptive streaming technologies for use in broadband networks and the Internet This book describes next-generation video coding and streaming technologies with a comparative assessment of the strengths and weaknesses. Specific emphasis is placed on the H.265/HEVC video coding standard and adaptive bit rate video streaming. In addition to evaluating the impact of different types of video content and powerful feature sets on HEVC coding efficiency, the text provides an in-depth study on the practical performance of popular adaptive streaming platforms and useful tips for streaming optimization. Readers will learn of new over-the-top (OTT) online TV

advancements, the direction of the broadband telecommunications industry, and the latest developments that will help keep implementation costs down and maximize return on infrastructure investment. Reviews the emerging High Efficiency Video Coding (HEVC) standard and compares its coding performance with the MPEG-4 Advanced Video Coding (AVC) and MPEG-2 standards Provides invaluable insights into the intra and inter coding efficiencies of HEVC, such as the impact of hierarchical block partitioning and new prediction modes Evaluates the performance of the Apple and Microsoft adaptive streaming platforms and presents innovative techniques related to aggregate stream bandwidth prediction, duplicate chunk Includes end-of-chapter homework problems and access to instructor slides Next-Generation Video Coding and Streaming is written for students, researchers, and industry professionals working

in the field of video communications. Benny Bing has worked in academia for over 20 years. He has published over 80 research papers and 12 books, and has 6 video patents licensed to industry. He has served as a technical editor for several IEEE journals and an IEEE Communications Society Distinguished lecturer. He also received the National Association of Broadcasters (NAB) Technology Innovation Award for demonstrations of advanced media technologies. *Screen Digest* 1992

Digital Video Recorders Jimmy Schaeffler 2013-07-24
Four specific trends are driving the DVR industry: consumer content choice, consumer content control, personalization of content libraries, and the ability to transfer content from device-to-device and person-to-person. "Digital Video Recorders" features a macro and micro views of the already

established yet still burgeoning DVR industry. As part of the NAB Executive Technology Briefing series, this book gives you a wealth of market knowledge, business models, case studies, and industry insights explained in a non-technical fashion. "Digital Video Recorders" discusses the impact of the technology across many different industries and platforms, explains hardware, software and technology of set-top boxes, DVR infrastructure, on-screen guides, planning and scheduling, content security, and more. Whether you are an executive in the broadcast, telecommunications, consumer electronic, or advertising space, you will expand your knowledge on DVR impact, explore new business opportunities, and get a brief overview of the technical terms needed. You will also be able to accurately analyze and understand the trends, projections and other data, all of which will help lead to the expedited growth and development of DVR industry.
