The 39 sepia and tinted plates are introduced by three illustrated essays on photography and the Meiji Era in Japan: A Traveler's Paradise, by Frederic A. *Early Japanese Images* Terry Bennett 2013-02-19 This fascinating Japanese photography book features over 140 images taken between 1853 and 1905 by the most important local and foreign photographers then working in Japan. Almost one-fourth of the images are hand colored, superb examples of a rich art form long since vanished. The Japan of this book too has disappeared, but author and compiler Terry Bennett has put together a unique portrait of the country at perhaps its most decisive turning point, a nation about to abandon its traditional ways and enter the modern age. Important features of Early Japanese Images include the following: A historical overview of the years 1853-1912 The story of early Western photographers in Japan The story of early Japanese photographers Over 100 images reproduced in original sepia tones Over 40 images reproduced as originally handcolored An invaluable index that identifies the photographers

**Outdoor Photography of Japan** Daniel H. Wiczorek 2015-04-16 This is a book of photographs which were taken in eastern and northern Japan (most of the prefectures to the east and north of the black line on the map below) through the four seasons of the year. At the time this book was published (June 2011) Daniel had been living in Japan for over 10 years and he and Kazuya Numazawa had known each other for about 9.5

of those years. They spent a good deal of their weekend and vacation time traveling around together, doing photography in northern and eastern Japan and exhibiting their work on their respective websites. Friends had been encouraging them to prepare a book of their photos so that the world could see and enjoy them. They finally got around to doing just that. This book highlights approximately 450 of their best photos years taken during the 9.5 years which they had traveled around together at that time. The photos range from astounding mountain scenery taken through the seasons to close-up photos of flowers - also through the seasons. If you wonder what Japan has to offer the traveler or tourist, this book will give you some hints and clues as to what you might be able to see if you travel to Japan in any of the four seasons. This book takes you as far north as you can go on Hokkaido, the Northern Island, as well as to Akita, Aomori, Fukushima, Gifu, Gunma, Kanagawa, Nagano, Niigata, Saitama, Shizuoka, Tochigi, Toyama, Yamagata and Yamanashi Prefectures. (By the way - Daniel & Kazuya are still traveling around together, taking photographs and enjoying life as this is being written in 2015.)

This volume of this series of book highlights approximately 150 of their photos. The photos range from astounding mountain scenery taken during the winter & spring months to close-up photos of flowers - also during the winter & spring months. If you wonder what Japan has to offer the traveler or tourist this series of books will give you some hints and clues as to what you might be able to see if you travel to Japan in any of the four seasons.

**Gaijin.co.jp** Bradley Lawrence Bartz 2014-10-01 280 Photo collection of Japan by Bradley Bartz. 2+8+0=10, 1+0=1 - My Ichiban Collection These are 280 of my favorite photos from Japan over many years. Enjoy the views from the outdoor Hakone art museum that features major pieces by Henry Moore and Picasso. The travels in Japan include the super-fast bullet-trains (Shinkansen) to horseback in ceremonies at the Imperial palace. The beauty of Japan is captured in the smiling faces and lonely temples. Sometimes a simple stone water basin becomes art. This is my favorite photo. The Tokyo Tower is seen from many faces and sides as this historic radio beacon still commands respect from its neighbors. Stop time. That is what photography does. But in Japan the subjects of old villages are also stuck in time. Come enjoy the juxtapositions of Japanese big city life to the peaceful gardens. The Imperial Palace surprised me recently when horse drawn carriages drew my eye and as I ran along the route I kept being so pleased. Once on the palace grounds the tourists got a special treat and I got some great shots. Timeless symbols abound in Japan. From Shrines to Temples to city streets. The mixture of age and new, beauty and concrete bound on each page. My family provides comic relief as we hop trains, buses, taxis and walk the city and countryside. From Tokyo you can be in pure green in 2 hours. In 4 hours you can start to be in places that feel untouched. Local, national, foreign, Japanese, modern and classic art is everywhere in Japan. It happens in the most unlikely places, even when in the middle of a museum. Burning worship cabinets from deceased in front of the great temple shadowed by Tokyo Tower. GAIJIN.co.jp Japan Photo Montage is a great gift and will look good on your coffee table. Okinawa is its own culture. It is Japan, but the Chinese, Pilipino influences are undeniable. 60 years of American occupation make this a California zipcode, including palm trees! Geisha and Maiko do exist in Modern Japan. I only capture a few, but the Grass Hut village with terraced rice paddies

command respect in the many pages dedicated here. Crowds, train stations and more. People are everywhere going about their business. When they catch my camera's eye they smile wide. Sometimes, will then pass by and speak French and really screw up where you think you are. Japan is modern, metro, old, refreshing and still changing. Entropy is only the population growth. Japanese society is moving forward with a great pace and will continue to do so. Roppongi, Tokyo is featured often as that is where I live while in town. They look like hookers, but it's just the local fashion. The rebellion takes place at 11. Photos at noon. The Gekko in the Electrical Box closes this Japan Photo Montage. The luckiness of the Gekko is that it shows that this is a safe place to live according the locals.
