101 Things You Need to Know (...and Some You Don'T) Tracey Turner 2006 101 marvellous facts,

brilliantly explained- Why do we have nails? Why is the sky blue? Why can birds stand on electric wires and not be electrocuted? Educate your child with minimum effort, and in blissful peace and quiet. The perfect source of fascinating facts for any child who doesn't want to be Boring when they Grow Old. Includes activity sheets, quizzes, lists to tick off, and stickers.

How to Build a Robot Army Daniel H. Wilson 2018-03-27 It goes without saying that robots kill. They hunt, swarm, and fire lasers from their eyes. They even beat humans at chess. So who better to stand with us when the real villains arrive? Movies instruct us that, whether we like it or not, we will one day be under siege by pirates, ninjas, zombies, aliens, and Godzilla. Also great white sharks. And-let's face it-we're not prepared. But with the advice contained in this brilliantly illustrated, ingenious book, you can build your own robot army to fend off hordes of bloodthirsty foes. From common-sense injunctions ("never approach an unfamiliar robot in a militarized zone") to tactical pointers ("low-power radar beats cameras for detecting mummies in a fog-shrouded crypt") to engineering advice ("passive-dynamic exoskeleton suits will increase sprint speeds but not leg strength"), this book contains all the wisdom you'll need to fend off the coming apocalypse. Witty, informative, and utterly original, *How to Build a Robot Army* is the ideal book for readers of any age.
