The Manhattan Project and the Dropping of the Atomic Bomb Aaron Barlow 2019-11-08 This invaluable resource offers students a comprehensive overview of the Manhattan Project and the decision to drop the atomic bomb, with more than 80 in-depth articles on a variety of topics and dozens of key primary source documents. This book provides everything readers need to know about the Manhattan Project, the U.S. program that led to the development of the atomic bomb during World War II. It begins with a detailed introduction to the project and includes an alphabetical collection of relevant entries on such topics as the Enola Gay, the first aircraft to drop an atomic bomb; Enrico Fermi, creator of the first nuclear reactor; Hiroshima, the target of the first atomic bomb; and Robert Oppenheimer, director of the Manhattan Project. Dozens of primary sources include eyewitness accounts, government memos, letters, press releases, and other important documents relevant to the establishment and success of the Manhattan Project. A set of four essays written by prominent scholars address whether the United States was justified in dropping the atomic bomb on Japan. The book also includes a comprehensive chronology that reveals key moments related to the creation of the world's first nuclear weapon as well as a bibliography of resources that points readers toward additional information on the Manhattan Project, nuclear weapons, and World War II.

Flash Gordon (1965) Gold Key Comics Alex Raymond 2014-08-15 In the company of Dale Arden, Flash Gordon embarked for the planet Mongo in 1934. That was in the Sunday funnies in a page drawn by Alex Raymond and written anonymously by former pulp-fiction editor Don Moore. This space opera became one of King Features Syndicate's most popular features, and Raymond's illustrative art was to have a strong influence on many of the young artists who began drawing for comic books in the late 1930s and the early 1940s—Tom Hickey, Sheldon Moldoff, Jack Lehti, George Papp, Mac Raboy, Dan Barry, etc. Flash Gordon entered comic books early in 1936 by way of reprints in King Comics. His battles with the merciless Ming, a sort of galactic Fu Manchu, unfolded in the magazine from the first issue. In the early 1940s Dell began issuing now and then Flash Gordon reprint titles. Later in the decade came an occasional comic-book offering Flash adventures "especially written and drawn for this magazine." The artist was Paul Norris, who also began drawing the Jungle Jim newspaper page in 1948. Harvey Publications tried reprinting the Raymond material in 1950 and 1951, giving up after a few issues. King Features experimented with

publishing comic books in the late 1960s. These used original material, and the Flash Gordon book made use of such artists as Al Williamson, a devoted Raymond disciple, Gil Kane, and Reed Crandall. When King quit, Charlton took over and finally Gold Key. The final Whitman Flash Gordon comic book was printed in 1982. He reappeared briefly in 1987 as part of a team that included Mandrake and the Phantom in the TV-inspired Defenders of the Earth.
