The Gambler Paolo Bacigalupi 2016-02-04 In this Hugo and Nebula Award-nominated short story, a Laotian journalist, Ong, tries to succeed in an American news agency where glamorous "click-bait" stories drive revenue, and in-depth news stories are a dying breed. As Ong struggles to survive in the newsroom, he must choose whether he will pursue clicks and success, or stay true to his ideals, and risk everything because of it. "The Gambler" was nominated for the 2009 Hugo Award for Best Novelette, and the 2009 Nebula Award for Best Novelette. It was featured in Gardner Dozois's "Year's Best SF" Twenty-Sixth Edition, Jonathan Strahan's "Best SF of the Year" Volume 3, and originally published in Pyr's Fast Forward 2 Anthology. Reviews: "The stories he [Paolo] chooses to write are those that make an easy extrapolation of the present into the near future, but with an immediacy and richness of detail that shows the reader just how close we are to seeing this come to pass. The world of *The Gambler* isn't as dystopian as what we normally get from him, but his protagonist still serves a similar function as a lone voice of reason in a future you would not prefer but which seems somehow inevitable. There may be some analogy there with the author himself, but either way this is a nicely done story." --- Mataglap SF "...The story ... wisely spends its time deepening Ong's quiet but firm sincerity. The end of the "The Gambler" is probably the most touching thing Bacigalupi has yet written: what Ong gambles on is human nature, and Bacigalupi makes us want him to win." ---Torque Control

High Stakes, No Prisoners Charles H. Ferguson 1999 High Stakes, No Prisoners is a sharp, brilliant insider's account of the way Silicon Valley really works: the sharks, powerful incumbents, and old-boy networks who play hardball all the time and the geniuses who make the products that have changed the world. Charles Ferguson started Vermeer Technologies and turned his very cool, very big idea into FrontPage, the first software product for creating and managing a website. A mere twenty months after starting the company, he sold it to Microsoft for \$133 million, making a fortune for himself and his associates. FrontPage now has millions of users and is bundled with Microsoft Office. But getting there wasn't always fun. High Stakes, No Prisoners is the book about the Valley and reflects Ferguson's unique experience not only as a successful entrepreneur but also as a policy analyst, computer industry consultant, and academic. Reveals A Great Internet Success Story High Stakes, No Prisoners is a highly

personal account of what it really takes to win as a high-technology startup, especially in the Internet industry, where any speed below warp nine doesn't get you to takeoff. From securing venture capital to getting both the strategy and the technology right, from dealing with Microsoft's power to working with some of the quirkiest, smartest people on the planet, it's all here. The Valley story has never been told with this much depth and honesty. Reports from the Trenches of the Internet Wars Vermeer was right in the middle of the battle between Microsoft and Netscape. Both companies wanted to either acquire Vermeer or kill it. Skewers the Sacred Cows of the Valley Yes, Microsoft declared war on Netscape, but the latter's demise was caused as much by itself as by Microsoft. Ferguson, for example, sees Jim Barksdale, the former CEO of Netscape, as arrogant, ignorant about technology, distracted by politics and glamour, and running a company in partnership with a twenty-three-year-old who'd never held a serious job before." Here's Netscape as it has never before been revealed. Explains the Real Problem with Microsoft Microsoft's business model is unquestionably one of the great creations of American business. But its power has become so great, its behavior so unrestrained, and its abuses so dangerous that intelligent action has to be taken. Ferguson's analysis of what must be done is a major contribution to one of the most important public-policy questions of our time. Silicon Valley is the crown jewel of the American economy and a critical driver of American technology. It's electric, addictive, vulgar, full of brilliance, brutally fair and brutally unfair, fiercely competitive, often dishonest, tremendously exciting, and utterly unique. With High Stakes, No Prisoners, the real story has finally been told--with frankness, insight, and great wit.

Marriage and Divorce in India 2025-10-27 This volume explores the nature of social change in the fundamental institution of marriage in Indian society. It documents the churning going on in

the conjugal bond with reference to gender inequality, patriarchy, domestic violence, divorce, separation, and remarriage under the impact of urbanization, modernization and globalization. The work includes fourteen papers divided into three parts. Part I discusses changes in the choice of spouse in terms of age at marriage and the age differential between spouses; endogamy and hypergamy; inter-caste and interfaith marriage; and divorce and remarriage among Hindus, Muslims and Christians with particular attention to feminism. It raises new questions about the rising trends of separation, desertion, divorce, remarriage, and the option to live single. Part II takes a closer look at love, sex and marital relationships through the prism of films, state laws, and civil rights. It specifically deals with the live-in relationships, extra-marital relations, matrimonial litigation, and use and abuse of IPC 498A. Part III documents the changing character of spouse selection through the newer forms such as the print and electronic media and the shift from parental choice to individual choice. The volume will interest students and scholars of sociology, social anthropology, family studies, and law, as well as counselors, various religious organizations, and electronic and print media.

Commoditization and the Strategic Response

Andrew Holmes 2016-05-23 Organizations and those who work within them are under attack from the increasingly pervasive impacts of commoditization. With little to distinguish one company's products and services from another or one person's skills and capabilities from the next, organizations and workers alike are finding themselves trapped in the me-too hell of commoditization. For many this means the survival of the cheapest, as price becomes the principal basis for decision making. For others it requires them to think creatively to avoid the trap of commoditization, even though this may only provide a temporary respite. In this groundbreaking book, Andrew Holmes sets out why commoditization represents such a clear and present danger to every corporation and all white-collar workers. Starting with the nature of the commodities we are familiar with such as coal and cotton, Holmes moves on to describe how commoditization is affecting entire industries and is increasingly touching the work of the professional classes. The evidence is both fascinating and compelling and it is clear that the impacts of commoditization are far reaching. The author also outlines the impact of commoditization on an organization's strategy towards brand, supply chain, value chain, innovation, pricing and competition. He explores the implications for skills, attitudes and behaviours in the workplace before describing a series of strategies for avoiding the risk and exploiting the opportunities offered by a new commoditized world, such as outsourcing, innovation, offshoring, mergers and acquisitions, divestments and first mover advantage. Holmes offers organizations and white-collar workers a range of strategic responses which can be used to combat its worst impacts. And as commoditization continues to make inroads into the corporate and working worlds, this book will be an invaluable companion to addressing the challenges which it presents.
