New media and the creative industries Great Britain: Parliament: House of Commons: Culture, Media and Sport Committee 2007-05-16

Incorporating HCP 1091-i to viii, session 2005-06. Incorrectly printed with "fourth report" on document **Linux Journal** 2003 *Adventist Review* 2003 **Security Protocols** Bruce Christianson 2003-07-31 This book constitutes the thoroughly refereed post-workshop proceedings of the 6th International Workshop on Security Protocols held in Cambridge, UK in April 1998. The 15 revised papers presented as position statements are followed by transcripts of the discussions between the authors and the audience. Also included is a report on the final panel discussion on future directions in security protocols research and developments. Thus the volume reflects the lively interaction at the workshop. The papers are devoted to the interrelations between trust and delegation, exploring the implications and effects of these upon such issues as authorization, security policy, and cryptosystems and component design.

No Silence 1994
House of Commons - Culture, Media and Sport Committee: Supporting The Creative Economy - Volume I: HC 674 Great Britain: Parliament: House of Commons: Culture, Media and Sport Committee 2013-09-26 This report warns that the extraordinary success of the UK's creative industries may be jeopardised by any dilution of intellectual property rights and the failure to tackle online piracy. The Committee also strongly condemns the failure of Google in particular to tackle access of copyright infringing websites through its search engine. Such illegal piracy, combined with proposals arising from the Hargreaves review to introduce copyright exceptions, and a failure to strengthen copyright enforcement as envisaged by the Digital Economy Act 2010, together threaten the livelihoods of the individuals and industries that contribute over £36 billion annually to the UK economy. Also, the Olympics No Marketing Rights

scheme is excessively restrictive and is preventing British creative companies from realising the benefits they deserve from the Olympic legacy. The Committee calls for: a central champion of Intellectual Property in Government to promote and protect the interests of UK intellectual property; the maximum penalty for serious online IP theft to be increased to 10 years imprisonment, in line with the punishment for such offences in the physical world; more evidence and scrutiny before any exceptions to copyright such as those suggested by Hargreaves are applied; redoubled efforts to ensure that the video games tax credit is approved by the European Commission and introduced as soon as possible; reforms to the income tax and tax reliefs systems to recognise adequately the freelance nature of much creative work; greater recognition of the importance of arts subjects in the curriculum.
