Strategic International Management Dirk Morschett

2025-05-24 A compact overview of the key concepts and main developments in International Management. Strategy concepts, models and theories of Multinational Corporations and their practical implementation are the core of this book. The authors explore the unique aspects of international value chain activities and business functions, offering a deep understanding of how areas like Production & Sourcing, Research & Development, Marketing, Human Resource Management, and Controlling are managed in international firms. In 25 chapters, each topic is explained with a comprehensive overview, followed by a case study from a prominent international company to facilitate the understanding and application

of the concepts. In this fourth edition, all chapters have been thoroughly updated to include new academic insights and recent developments. New chapters on MNCs from Emerging Markets and on Foreign Divestment have been added. Nearly all case studies have been replaced with new ones; the rest of them have been revised. Despite these updates, the proven core concept of the book remains unchanged. From the fourth edition, Benjamin Bader joins the author team.

Strategic Retail Management

Joachim Zentes 2016-10-07

This book is devoted to the dynamic development of retailing. The focus is on various strategy concepts adopted by retailing companies and their implementation in practice. This is not a traditional textbook or collection of case studies; it aims to demonstrate the

complex and manifold questions of retail management in the form of twenty lessons, where each lesson provides a thematic overview of key issues and illustrates them via a comprehensive case study. The examples are all internationally known retail companies, to facilitate an understanding of what is involved in strategic retail management and illustrate best practices. In the third edition, all chapters were revised and updated. Two new chapters were added to treat topics like corporate social responsibility as well as marketing communication. All case studies were replaced by new ones to reflect the most recent developments. Well-known retail companies from different countries, like Tesco, Zalando, Hugo Boss, Carrefour, Amazon, Otto Group, are now used to illustrate particular aspects of retail management.
