May 11, 2013 · Here I'm creating a JavaScript object and converting it to a JSON string, but `JSON.stringify` returns "[object Object]" in this case, instead of displaying the contents of the object. I've opened VS Code's `settings.json` file many times, and each time I forgot where it was. If I go to File → Preferences → Settings, I get the graphical settings interface (screenshot). I want to open Sep 4, 2020 · Note: This won't prettify the json representation. To do so, one can previously rely on an external service such as jsbeautifier.org and paste the prettified result in the wiki. JSON (JavaScript Object Notation) is a lightweight format that is used for data interchanging. It is based on a subset of JavaScript language (the way objects are built in JavaScript). As stated in the MDN, ... Here the message contains single quotation mark, which is same as the quotation used in JSON. What I do is fill up a string from user inputs such as message. So, I need to escape those kind of special ... 963 The `org.json` library is easy to use. Just remember (while casting or using methods like `getJSONObject` and `getJSONArray`) that in JSON notation [...] represents an array, so library will ... JSON stems from Javascript (JavaScript Object Notation), it only makes sense that it was originally adapted for use in Javascript. Unfortunately, as with all things related to Javascript, it has gained ... If you have control over the generated json, for example, you provide data to other systems in json format, choosing 8601 as the date interchange format is a good choice. Of course, the correct MIME media type for JSON is `application/json`, but it's necessary to realize what type of data is expected in your application. For example, I use Java Ext GWT and the server ... JSON is used a lot for application data and configuration settings, so comments are necessary now. The "official spec" is a nice idea, but it's insufficient and obsolete, so too bad. Minify your JSON if you're ...
