African Studies Review 2008

Conflict Analysis Matthew Bernard Levinger 2013 *Conflict Analysis: Understanding Causes, Unlocking Solutions* is a guide for practitioners seeking to prevent deadly conflict or mitigate political instability. This handbook integrates theory and practice and emphasizes the importance of analyzing the causes of peace as well as the causes of conflict. It stresses that conflict analysis is a social as well as an intellectual process, helping practitioners translate analysis into effective action.

Between War & Peace in Sudan & Sri Lanka N. Shanmugaratnam 2008 Sudan and Sri Lanka are two countries that have experienced protracted internal wars. The consequences of the internal wars of the Sudan and Sri Lanka have been devastating for human and livelihood security and for these two countries' overall development. Both countries have records of failed attempts to resolve their conflicts by political means; both have been going through internationally facilitated peace processes which have also been linked to post-conflict development. Each intra-state conflict has its distinct historical, political, economic and cultural characteristics. Yet there are parallels between two developing countries in which post-colonial state formation has become mired in prolonged anti-state armed conflict. This book addresses from different angles and different levels the issues of conflict resolution, peace preparation, people's perceptions of the impact of conflict on their lives, war-induced grievances, relief, vulnerability, poverty, livelihood revival and social mobility, and development.

How China Loses Luke A. Patey 2021 Tells the story of China's struggles to overcome new risks and endure the global backlash against its assertive reach. Combining on-the-ground reportage with analysis, Luke Patey argues that China's predatory economic agenda, headstrong diplomacy, and military expansion undermine its global ambitions to dominate the global economy and world affairs

The Sudanese Civil Conflict, 1969-1985 Catherine Jendia 2002 The resolution of the Sudanese conflict, one of the longest and deadliest civil wars in Africa, continues to perplex human imagination. Leadership, as a necessary factor in nation-building, has not met the expectations of the Sudanese people. These expectations include the quest for political stability, national security, and a peaceful government that is capable of leading the nation to economic prosperity. From 1969 to 1985, Jaafar el Nimeiry dominated historical, political, social, and economic factors whose interplay led to the resumption of the civil war in 1983. This book greatly contributes to national and international understanding of conflicts related to nation-building processes. The voiceless, downtrodden, and the powerful have all expressed their views about the conflict.

Conflict Management and Resolution in South Sudan Nelson Alusala 2023-08-08 This book analyses the main events and turning

points in the building of pre- and post-independent South Sudan. It covers the historical perspectives of the country, its key political, mediation and negotiation processes, peace and security, socio-economic development, and gender, as well as conflict and reconstruction. Many African states are products of compromised peace settlements and power sharing agreements, following violent and protracted conflicts between colonial/occupying powers, armed groups and nation states. This is the same route that Africa's youngest nation, South Sudan traversed before attaining independence in July 2011. This edited volume is an innovative collection that serves as a complete reading on South Sudan, from the pre-independent to post-independent realities of the political, military and inter-ethnic conflicts and the negotiations to resolve them. It is a step-by-step account of the major events that mark the history as well as the contemporary occurrences in South Sudan. The book offers guidance on how to sustainably end armed conflict in Africa by tackling four broad themes that include the historical analysis of the conflict, political issues, peace and security, and gender, justice and contemporary dynamics. The book presents a gendered approach to arguments, while also reflecting gender equity in terms of the book authorship. Academics, researchers and specialists in the field of conflict management and resolution as well as security studies will find this book useful.
