The Politics of the Textbook

Michael W. Apple 1991 *The Politics of the Textbook* analyzes the political, economic and cultural factors that shape the production, distribution and reception of school texts.

to consider when calculating the overall cost of attending

college. In an effort to ensure that faculty and students have

sufficient information about textbooks, Congress included

requirements in the Higher Education Opportunity Act

(HEOA) concerning publisher

and school disclosures, as well as publisher provision of

individual course materials. This report addresses (1) the

efforts publishers have made to provide textbook information to

faculty and make bundled materials available for sale

individually, and how these practices have informed faculty

A Multimodal and

Ethnographic Approach to

Textbook Discourse Germán

Canale 2022-08-30 This book

offers a new framework for analysing textbook discourse, bridging the gap between

contemporary ethnographic approaches and multimodality for a contextually sensitive

approach which considers the multiplicity of multimodal

resources involved in the production and use of

textbooks. The volume makes

the case for textbook discourse

studies to go beyond studies of textual representation and critically consider the ways in which textbook discourse is situated within wider social practices. Each chapter considers a different social semiotic practice in which textbook and textbook discourse is involved:

representation,

communication, interaction,

learning, and

recontextualization. In bringing

together this work with

contemporary ethnography

scholarship, the book offers a

comprehensive toolkit for

further research on textbook

discourse and pushes the field

forward into new directions.

This innovative book will be of

particular interest to students

and scholars in discourse

analysis, multimodality, social

semiotics, language and

communication, and

curriculum studies.
