of Zimbabwean Refugee Children** Lawrence
Meda 2017-06-27 This study is a presentation of
Zimbabwean refugee learner experiences.
Children escaped political persecution and
economic problems which affected Zimbabwe in
the year 2008. Many of these children were
abused and witnessed traumatic experiences,
their close relatives and neighbours being
executed in cold blood. This study was guided by
three critical questions: i) who are the
Zimbabwean refugee learners? ii) what were
Zimbabwean refugee learners' migration
experiences? and iii) what were Zimbabwean
refugee learners' school experiences? The study
employed Bronfenbrenner's Social Ecological
Model as its overarching theoretical framework.
Each stage of the refugee experience was
described at each point in time.
