Elementary and Intermediate Algebra, Books a la Carte Edition Michael Sullivan, III 2013-01-22
Normal 0 false false false

MicrosoftInternetExplorer4 This edition features the exact same content as the traditional text in a convenient, three-hole-punched, loose-leaf version. Books a la Carte also offer a great value--this format costs significantly less than a new textbook. The Sullivan/Struve/Mazzarella Algebra program is designed to motivate students to "do the math"-- at home or in the lab--and supports a variety of learning environments. The text is known for its two-column example format that provides annotations to the left of the algebra. These annotations explain what the authors are about to do in each step (instead of what was just done), just as an instructor would do.

Elementary and Intermediate Algebra Plus MyMathLab -- Title-Specific Access Card Package Michael Sullivan, III 2017-05-08 For courses in Elementary and Intermediate Algebra This package includes MyLab Math. Helping

Students Innovatively Do the Math The Sullivan Elementary & Intermediate Developmental Math Series, 4th Edition introduces students to the logic, precision and rigor of mathematics, while building a foundation for success in future math courses. Known for their hallmark examples that give students extra step-by-step support, the authors have continued their successful text pedagogy and have focused in the revision to translating it to the MyLab(TM) Math course for a truly dynamic learning and teaching experience. Key revisions to the MyLab Math course include guided "How To" exercises, modeled on the successful Show Case examples and new GeoGebra applet exercises. The Sullivan team has revised their MyLab Math course to ensure that students are getting the most of the resources they have at their disposal. For example, they offer an enhanced e-text that allows students to easily and quickly refer back to a specific page for examples. To encourage students outside of the classroom, the author team developed a MyLab Math that helps them develop good study skills, garner an understanding of the connections between topics, and work smarter in the process. Personalize learning with MyLab Math. MyLab(TM) Math is an online homework, tutorial, and assessment program designed to work with this text to engage students and improve results. Within its structured environment, students practice what they learn, test their understanding, and pursue a personalized study plan that helps them absorb course material and understand difficult concepts. NOTE: This text requires a title-specific MyLab Math access kit. The title-specific access kit provides access to the Sullivan/Struve/Mazzarella, Elementary & Intermediate Algebra 4/e accompanying MyLab course ONLY.

[Elementary and Intermediate Algebra](#) Michael Sullivan, III 2010 The Sullivan/Struve/Mazzarella Algebra Series was written to motivate students to "do the math" outside of the classroom through a design and organization that models what you do inside the classroom. The left-to-right annotations in the examples provide a teacher's voice through every step of the problem-solving process. The Sullivan exercise sets, which begin with Quick Checks to reinforce each example, present problem types of every possible derivation with a gradual increase in difficulty level. The new "Do the Math" Workbook acts as a companion to the text and to MyMathLab(R) by providing short warm-up exercises, guided practice examples, and additional "Do the Math" practice exercises for every section of the text. Operations on Real Numbers and Algebraic Expressions; Equations and Inequalities in One Variable; Introduction to Graphing and Equations of Lines; Systems of Linear Equations and Inequalities; Exponents and Polynomials; Factoring Polynomials; Rational Expressions and Equations; Graphs, Relations, and Functions; Radicals and Rational Exponents; Quadratic Equations and Functions; Exponential and Logarithmic Functions; Conics; Sequences, Series, and the Binomial Theorem For all readers interested in beginning and intermediate algebra.
