Fourier Transform The Fourier transform is an amazing mathematical tool for understanding signals, filtering and systems. What is a signal? A signal is typically

something that varies in time, like the ... Joseph Fourier studied the mathematical theory of heat conduction. He established the partial differential equation governing heat diffusion and solved it by using infinite series of trigonometric functions. Sine and cosine waves can make other functions! Here two different sine waves add together to make a new wave: You can also hear it at Sound Beats.
