Physics, Volume 1 James Walker 2024-05-27 Intended for algebra-based introductory physics courses. An accessible, problem-solving approach to physics, grounded in real-world applications James Walker’s Physics provides students with a solid conceptual understanding of physics that can be expressed quantitatively and applied to the world around them. Instructors and students praise Walker’s Physics for its friendly voice, the author’s talent for making complex concepts understandable, an inviting art program, and the range of excellent homework problems and example-types that provide guidance with problem solving. The Fifth Edition, Volume 1 (Chapters 1-18) includes new “just-in-time” learning aids such as “Big Ideas” to quickly orient students to the overarching principles of each chapter, new Real-World Physics and Biological applications, and a wealth of problem-solving support features

to coach students through the process of applying logic and reasoning to problem solving. Also available with MasteringPhysics MasteringPhysics from Pearson is the leading online homework, tutorial, and assessment system, designed to improve results by engaging students before, during, and after class with powerful content. Instructors ensure students arrive ready to learn by assigning educationally effective content before class and encourage critical thinking and retention with in-class resources such as Learning Catalytics. Students can further master concepts after class through traditional and adaptive homework assignments that provide hints and answer-specific feedback. The Mastering gradebook records scores for all automatically graded assignments in one place, while diagnostic tools give instructors access to rich data to assess student understanding and misconceptions. Mastering brings learning full circle by continuously adapting to each student and making learning more personal than ever-before, during, and after class.

Student Study Guide to accompany Physics, 10e John D. Cutnell 2014-12-30 This is the Student Study Guide to accompany Physics, 10th Edition. Cutnell and Johnson's Physics has been the #1 text in the algebra-based physics market for almost 20 years. Physics, 10th Edition brings on new co-authors: David Young and Shane Stadler (both out of LSU). The Cutnell offering now includes enhanced features and functionality. The authors have been extensively involved in the creation and adaptation of valuable resources for the text. The 10th edition includes 160 New Chalkboard videos, guided online tutorials in every chapter, and vector drawing questions. All of these features are designed to encourage students to remain within the WileyPLUS environment, as opposed to pursuing the "pay-for-solutions" websites that short circuit the learning process.
