Digitalization in Business and

Management Kannan Paulraj
2026-01-28 Research is the only way to update our knowledge on current trends. This International Conference on Digitalization in Business and Management is a platform for researchers to share their knowledge at the conference. Digitization in business and management is growing very prolifically in every process in all industries. Digitization is mounting in operations, finance, marketing, human resources, analytics and all areas of management. As industrialists and academicians, the authors also update and apply the evolving concepts in their own businesses and educate students. If the business leaders want to sustain in this Industry 4.0 and to face Industry 5.0, they should update their business to fully digitalize it. Now China has entered an era of dark factory concepts. Dark factory is a fully automated manufacturing facility that operates with minimal or no human intervention, relying on robots,

AI, and IoT to handle all production processes. This international conference inspires the students, researchers and academics to contribute their insights about digitalization and Industry 4.0 and 5.0.
