

The Marriage Of Cadmus And Harmony

Kafka Roberto Calasso 2005 From the internationally acclaimed author of *The Marriage of Cadmus and Harmony* comes one of the most significant books in recent years on a writer of perennial interest: Franz Kafka. What are Kafka's fictions about? Are they dreams? Allegories? Symbols? Countless answers have been offered, but the essential mystery remains intact. Setting out on his own exploration, Roberto Calasso enters the flow, the tortuous movement, the physiology of Kafka's work to discover why K. and Josef K.-the protagonists of *The Castle* and *The Trial*-are so radically different from any other characters in the history of the novel, and to determine who, in the end, K is. The culmination of Calasso's lifelong fascination with Kafka's work, *K.* is a book of remarkable literary importance. Book jacket.

The Origin of All Religious Worship Dupuis 1872 *Universal (In the Realm of the Sensible)*

Dorothea Olkowski 2025-03-31 *The Universal (In the realm of the sensible): Beyond Continental Philosophy* proposes a radical, new philosophical system that moves from ontology to ethics. Dorothea Olkowski develops the concept of an ontological unconscious, a connection arising from our sensible relation to the world that conditions encounters with the environment and with others. This fundamental ontology rethinks the space-time relations opened by Irigaray's notion of the 'interval,' Bergson's 'recollection,' Merleau-Ponty's idea of the 'flesh' and Deleuze's 'plane of immanence'. Writing in an original style, inspired by literature and the arts, Olkowski locates a 'realm of the senses', a field of vulnerability, felt as pleasures and pains. This presents an aesthetic sense of something universal to all human kind, as well as to the organic and inorganic world. In addition to this proposal for a wider ontology, the relation between traditional ontologies and politics is examined as a means of opening politics beyond a no exit or limit cycle. Instead a multiplicity of self-organized, emergent perspectives emerges, eliminating the need for the connections,

conjunctions, and disjunctions of the Kantian paradigm at work in contemporary continental philosophy. This is a timely, controversial and important book that will contribute enormously to the study of Deleuze and Continental Philosophy.

The Penguin Book of International Gay Writing Mark Lindsey Mitchell 1996 "A riotous party," says David Leavitt of this anthology, in which seventeenth-century samurai mingle with twentieth-century Russian emigres and Chinese peasants. As in *The Penguin Book of Gay Short Stories*, writers both gay and straight explore the complicated questions surrounding love and sex between men, homosexual identity, relationships between gay men, their friends, and their families. From Plato to Boccaccio, Marguerite Yourcenar to Reinaldo Arenas, Yukio Mishima to Manuel Puig, these writings reveal an unexpected cultural and historical flexibility of attitudes toward homosexuality.

On Beauty Umberto Eco 2004 Beauty is both a history of art, and a history of aesthetics. Eco draws on the histories of both art and aesthetics to define the ideas of beauty that have informed sensibilities from the classical world to modern times. Taking in painting, sculpture, architecture, film, photography, the decorative arts, novels and poems, it offers a rich panorama of this huge subject. It traces the philosophy of aesthetics through history and examines some of the many treatises that have sought to define it. Eco writes about Botticelli and Michelangelo, but also about the way fashion of the 1960s owes much to ancient Egyptian dress, or the fact that ancient Roman and eighteenth-century hairstyles have much in common. *Bespreking van de Nederlandse vertaling in: Boekman. 17(2005)65(winter. 106-107).*

The New Republic Herbert David Croly 1995 Classical Myths and Legends in the Middle Ages and Renaissance H. David Brumble 1998-02 While numerous classical dictionaries identify the figures and tales of Greek and Roman mythology, this reference book explains the allegorical significance attached to the myths by Medieval and Renaissance authors. Included are several hundred alphabetically arranged entries for the gods, goddesses, heroes, heroines, and places of classical myth and legend. Each entry includes a brief account of the myth, with reference to the Greek and Latin sources. The entry then discusses how Medieval and Renaissance commentators interpreted the myth, and how poets, dramatists, and artists employed the allegory in their art.
