

The Rule Of Metaphor Paul Ricoeur

Reading Ricoeur David M. Kaplan 2008-07-24 In *Reading Ricoeur*, fourteen well-known scholars interpret, evaluate, and criticize the works of Paul Ricoeur, one of the twentieth century's most important and far-reaching philosophers. The contributors discuss Ricoeur's entire philosophical career: from his existentialist-phenomenology of the 1940s and '50s; his hermeneutics and critique of structuralism in the 1960s and '70s; his narrative and moral philosophy of the 1980s; his political and legal philosophy of the 1990s; his recent work on memory, forgiveness, and recognition; as well as his enduring interests in religious language and the problem of evil. The contributors not only explain the central concepts and structures of Ricoeur's philosophy, but they also bring him into dialogue with his contemporaries, including Sartre, Heidegger, Gadamer, Habermas, Rawls, and Lyotard. *Reading Ricoeur* demonstrates the central role of Paul Ricoeur in the development of twentieth-century philosophy.

Friend or Foe? The Figure of Babylon in the Book of Jeremiah MT

John Hill 2021-09-06 This work presents a literary interpretation of Babylon in the book of Jeremiah MT. It moves beyond historical-critical approaches, which have long dominated Jeremiah research, and shows that metaphor is central to a synchronic reading of the book. The study shows that Babylon is a multi-layered metaphor: at one level it is the archetypal enemy of both Judah and its God; at another level it is metaphorically identified with Judah. The study also explores the idea of the unended exile, and shows how this idea, so central to post-exilic Judaism, is also found in the book of Jeremiah MT.

The Rule of Metaphor Paul Ricoeur 2015-08-27 Paul Ricoeur is widely regarded as one of the most distinguished philosophers of our time. In *The Rule of Metaphor* he seeks 'to show how language can extend itself to its very limits, forever discovering new resonances within itself'. Recognizing the fundamental power of language in constructing the world we perceive, it is a fruitful and insightful study of how language affects how we understand the world, and is also an indispensable work for all those seeking to retrieve some kind of meaning in uncertain times.

New Horizons in Hermeneutics Anthony C. Thiselton 1992 Dr. Anthony Thiselton's thorough approach to the growing discipline of hermeneutics takes account of a comprehensive range of theoretical models of reading and interpretation. He evaluates both the foundations on which they rest and their practical implications for Old and New Testament reading. Building on his earlier influential work, *The Two Horizons*, Dr. Thiselton examines theories of texts, semiotics and literature, the legacy of Patristic and Reformation hermeneutics, and the use of socio-critical theory, liberation theology, and Marxist, feminist, and black hermeneutics, and discusses every major hermeneutical theorist. This exhaustive and rigorous critique will prove valuable to anyone undertaking advanced research in hermeneutics, including teachers and students of theology and language or literary theory."

Paul Ricoeur's Hermeneutics of the Imagination Jeanne Evans 1995 Paul Ricoeur's *Hermeneutics of the Imagination* argues Ricoeur's development of the philosophy of the creative imagination is vital to Ricoeur's articulation of a critical hermeneutics. Herein lies Ricoeur's hermeneutical contribution to the philosophy of religion and the problem of interpreting primary religious texts that utilize plurivocal forms of language. Evans clarifies that it is through Ricoeur's studies of metaphor and narrative that he assesses and explicates the subversive power of the creative imagination in terms of the philosophy of language. Dr. Evans systematizes this theme of the philosophy of the imagination from *Fallible Man*, the early work of Ricoeur to the more recent publication of *Time and Narrative*.

Rethinking Intellectual History Dominick LaCapra 1983 Dominick LaCapra calls for a new view of intellectual history--one that will revitalize the importance of reading and interpreting significant texts. In ten essays, he reformulates the problem of the relation between the "great" texts of the Western tradition and their contexts. Seeking to refine "context" into a concept useful to historical research, LaCapra

urges intellectual historians to learn from lessons and developments in contemporary literary criticism and philosophy, fields that have undertaken a radical reassessment of the reading of texts.

Jacques Derrida (Routledge Revivals) William Schultz 2016-06-17 First published in 1992, this book represents the first major attempt to compile a bibliography of Derrida's work and scholarship about his work. It attempts to be comprehensive rather than selective, listing primary and secondary works from the year of Derrida's Master's thesis in 1954 up until 1991, and is extensively annotated. It arranges under article type a huge number of works from scholars across numerous fields — reflecting the interdisciplinary and controversial nature of Deconstruction. The substantial introduction and annotations also make this bibliography, in part, a critical guide and as such will make a highly useful reference tool for those studying his philosophy.
