Gaining Word Power Dorothy Rubin 1999 *Gaining Word Power* helps college students build and retain better vocabularies and become more effective strategic readers. Based on more than thirty years of the author's teaching experience, this comprehensive vocabulary book generates a basic college-level vocabulary quickly, effectively, and pleasurably. It incorporates a number of proven vocabulary-building approaches that are grounded in sound learning theory. In each self-contained lesson, words are presented on graduated levels of difficulty, followed by challenging exercises and writing activities, then reinforced by immediate access to solutions. This enables students to progress at their own pace and evaluate their progress. Although this text has a distinct pedagogical structure, a variety of practices, crossword puzzles, writing exercises, analogy activities, and numerous cartoons throughout

challenge students to learn using a variety of strategies while continuously emphasizing the reading-writing connection.

Building a Medical Vocabulary Peggy C. Leonard 2001 This book provides an introduction to medical terminology. It is organized by body systems and begins with an orientation, using terms users may already be familiar with, then builds upon those terms to the more complex terminology. Each chapter presents concepts and illustrations reinforced by exercises, and ends with comprehensive review exercises. Programmed Learning sections are included, which help the reader actively participate in learning through immediate reinforcement and comprehension.
