### **Curriculum** Denisse R.

Thompson 2013-12-09 This volume, stemming from the 2010 Conference on Research on the Enacted Mathematics Curriculum, is valuable for both veteran and new researchers. It discusses variables in curriculum research and can be used for curriculum project teams or graduate courses.

### **Models and Modeling** Myint

Swe Khine 2011-03-01 The process of developing models, known as modeling, allows scientists to visualize difficult concepts, explain complex phenomena and clarify intricate theories. In recent years, science educators have greatly increased their use of modeling in teaching, especially real-time dynamic modeling, which is central to a scientific investigation. Modeling in science teaching is

being used in an array of fields, everything from primary sciences to tertiary chemistry to college physics, and it is sure to play an increasing role in the future of education.

### **Models and Modeling:**

#### **Cognitive Tools for Scientific**

#### **Enquiry** is a comprehensive

introduction to the use of models and modeling in science education. It identifies and describes many different modeling tools and presents recent applications of modeling as a cognitive tool for scientific enquiry.

### **The Academic Achievement of Minority Students**

Sheila T. Gregory 2000-01-19

Throughout the world, students of color experience failure in school for a variety of very complex reasons. They often do not receive the proper encouragement from teachers, they may lack the motivation necessary to excel in an

academic environment, they usually face a number of demographic, socioeconomic and cultural factors that work against them, or their academic performance may not be measured properly. With contributions from scholars living in the U.S. and abroad, *The Academic Achievement of Minority Students* is a comprehensive work that provides fresh insights and practical strategies for addressing these problems in order to enhance minority student performance in school. The papers in this volume collectively cover the many issues affecting minority students from kindergarten through post-secondary education including the instructional and nonacademic factors that promote achievement or lead to attrition. Most importantly, the authors offer valuable prescriptions for advancing the learning opportunities of all students in the future.

### **Assessing Student Learning and Development**

T. Dary Erwin 1991-03-26 This book is a practical, hands-on guide to assessing student learning and development in higher education. In engaging, nontechnical language, the book describes the key issues, strategies, terminology, and challenges in developing an assessment program within an academic department or a student affairs office. It offers step-by-step guidance for determining what is to be assessed and for defining program objectives.

### **Coaching Students with Executive Skills Challenges**

Peg Dawson 2023-05-24 This "manual presents an evidence-based coaching model for

helping students whose academic performance is suffering due to deficits in executive skills, including time and task management, planning, organization, impulse control, and emotional regulation. In just a few minutes a day, coaches can provide crucial support and instruction tailored to individual students' needs.

From leading experts, the book provides detailed guidelines for incorporating coaching into a response-to-intervention framework, identifying students who can benefit, conducting each session, and monitoring progress. Special topics include how to implement a classwide peer coaching program"--

Methods. This highly successful text addresses the full range of curriculum topics involved in educating individuals with severe disabilities. Clear descriptions and explanations of best practices, time-proven techniques, and a strong theory/research base combine to create one of the most comprehensive texts of its kind. Its focus on meaningful inclusion of students with disabilities and their non-disabled peers make this book an ideal main text for courses in severe disabilities.

**Raising Student Achievement Through Rapid Assessment and Test**

**Reform** Stuart S. Yeh 2006 In this book, Stuart Yeh suggests specific changes in test design, implementation, and policy that could greatly improve the benefits, and reduce the educational costs of high-stakes accountability policies. The book provides perspectives of teachers and administrators who have successfully used rapid assessment systems to improve student engagement

*Teacher Evaluation and Merit Pay* 1986-03-26 This bibliography includes scholarly journals, dissertations, papers, and books published primarily from 1980 through December 1984 that focus on teacher evaluation and merit pay. These materials are presented in separate chapters, according to the type of publication in which they appeared. In addition to materials identified and annotated from a literature search of several education databases, the authors wrote to public school districts with student populations of over 5,000 requesting copies of their teacher evaluation materials. They received 348 sets of evaluation documents and these materials are annotated in the chapter entitled School District Publications. Other materials prepared by school districts are included in the chapter entitled Papers.

**Psychological Assessment in the Schools** James C. Impara 1994 A new introduction from the Buros Institute, the Buros

Desk Reference Series is composed of individual volumes containing reviews of test instruments commonly used in particular areas. The first edition in this series brings together reviews of over one hundred tests most frequently used by school psychologists. Entries include reviews taken from the Mental Measurements Yearbook, along with descriptions of population, purpose, scoring, publisher, etc., taken from Tests in Print IV. The book is organized by category (e.g., Intelligence, Personality, Behavior Ratings) and also includes a title index, score index, and publishers directory. The convenient size and easy-to-locate information in this publication makes it an ideal desktop companion.
