## **Imitation and Contamination of the Classics in the Comedies of Ben Jonson**

Tom Harrison  
2022-10-12 This book focuses on the influence of classical authors on Ben Jonson's dramaturgy, with particular emphasis on the Greek and Roman playwrights and satirists. It illuminates the interdependence of the aspects of Jonson's creative personality by considering how classical performance elements, including the Aristophanic 'Great Idea,' chorus, Terentian/Plautine performative strategies, and 'performative' elements from literary satire, manifest themselves in the structuring and staging of his plays. This fascinating exploration contributes to the 'performative turn' in early modern studies by reframing Jonson's classicism as essential to his dramaturgy as well as his

erudition. The book is also a case study for how the early modern education system's emphasis on imitative-contaminative practices prepared its students, many of whom became professional playwrights, for writing for a theatre that had a similar emphasis on recycling and recombining performative tropes and structures.

## **Task-Based Approaches to Teaching and Assessing Pragmatics**

Naoko Taguchi  
2018-08-15 This volume is the first book-length attempt to bring together the fields of task-based language teaching (TBLT) and second language pragmatics by exploring how the teaching and assessment of pragmatics can be integrated into TBLT. The TBLT-pragmatics connection is illustrated in a variety of constructs (e.g., speech acts, honorifics, genres, interactional features), methods (e.g.,

quantitative, quasi-experimental, conversation analysis), and topics (e.g., instructed SLA, heritage language learning, technology-enhanced teaching, assessment, and discursive pragmatics). Chapters in this volume collectively demonstrate how the two fields can together advance the current practice of teaching language for socially-situated, real-world communicative needs.

TESOL Teacher Research Tendai Charles  
2024-10-09 This edited volume provides a comprehensive and detailed insight into the Teaching of English as a Second Language (TESOL) in the United Arab Emirates (UAE). It describes a variety of challenges that native

speakers of Arabic face when learning the English language and presents contemporary teaching strategies for supporting them. The book provides analyses of TESOL syllabi and policies currently adopted in the UAE's K-12 education sector, addressing strengths and areas which can be improved. The book also includes a critical discussion about the difficulties of implementing Western-based TESOL methodologies in a Middle Eastern context, from the perspectives of real-world practitioners. By presenting a combination of research-based and theory-based chapters, this book is a great resource to TESOL-related graduate students, teachers-in-training, educational leaders and policy makers in the UAE and beyond.

**High School Senior's Guide to Merit and Other No-Need Funding 2005-2007** Gail Ann Schlachter 2005-05 There are dozens of other funding directories describing college aid. But, none of them are like this one. First, unlike other directories, the High School Senior's Guide focuses only on merit and no-need scholarships. Not one of the programs covered here requires financial need. Plus, only programs open to college-bound high school seniors are included. No more scanning through hundreds of listings that apply to currently-enrolled college students, not to you. In addition, the entries here are grouped by discipline, so you can go directly to

the area you want to study. Not sure what your major will be? No problem. There's even a section listing programs that are open to support studies in any area. The High School Senior's Guide provides the only way to find money for college based solely on academic record, writing or artistic ability, speech-making skills, athletic success, high school club membership, religious or ethnic background, parents' military or organizational activities, and even pure luck in random drawings. Perhaps that's why College Financial Aid gave the High School Senior's Guide 4 stars--its highest rating!

*Shakespearean Spaces in Australian Literary Adaptations for Children and Young Adults*  
Michael Marokakis 2022-07-29 Shakespearean Spaces in Australian Literary Adaptations for Children and Young Adults offers a comprehensive examination of Shakespearean adaptations written by Australian authors for children and Young Adults. The 20-year period crossing the late-twentieth and early twenty-first centuries came to represent a diverse and productive era of adapting Shakespeare in Australian literature. As an analysis of Australian and international marketplaces, physical and imaginative spaces and the body as a site of meaning, this book reveals how the texts are ideologically bound to and disseminate Shakespearean cultural capital in contemporary ways. Combining current research in children's literature and Bourdieu's theory of cultural capital deepens the critical awareness of the status of Australian literature while illuminating a corpus of literature underrepresented by the

pre-existing concentration on adaptations from other parts of the world. Of particular interest is how these adaptations merge Shakespearean worlds with the spaces inhabited by young people, such as the classroom, the stage, the imagination and the gendered body. The readership of this book would be academics, researchers and students of children's literature studies and Shakespeare studies, particularly those interested in Shakespearean cultural theory, transnational adaptation and literary appropriation. High school educators and pre-service teachers would also find this book valuable as they look to broaden and strengthen their use of adaptations to engage students in Shakespeare studies.

*Academic Literacies in the Middle Years* Sally Humphrey 2016-11-18 The professional learning framework this book presents is designed to

support teachers' understandings of how language functions in their academic disciplines. This framework—a 4 x 4 metalinguistic toolkit—is informed by systemic functional linguistic theory and international educational research on academic and disciplinary literacies. The book shows and explains how teachers have applied specific 4 x 4 toolkits with students in middle school classrooms across a range of subjects for curriculum literacy instruction, assessment and feedback, resulting in substantial growth for their students in high-stakes national tests of literacy, as well as writing assessments in a number of subjects. In its focus on disciplinary literacies in diverse sociocultural settings, *Academic Literacies in the Middle Years* responds to contemporary international curricula for English language and literacy and the need for a strong evidence base for professional learning design.

**Second Language Listening** John Flowerdew  
2005-02-07 As an essential part of communicative competence, listening is a skill which deserves equal treatment with the other basic skills of speaking, reading, and writing. Second Language Listening combines up-to-date listening theory with case studies of actual pedagogical practice. The authors describe current models of listening theory and exemplify each with a textbook task. They address the role of technology in teaching listening, questioning techniques, and testing. Second Language Listening is designed to be used with both pre-

service and in-service teachers who are involved in the teaching of listening or the design of pedagogic materials for listening.
