College Textbooks Melissa

Emrey-Arras 2013-07-11 The rising costs of postsecondary education present challenges to maintaining college

affordability. Textbooks are an important factor students need to consider when calculating the overall cost of attending college. In an effort to ensure that faculty and students have sufficient information about textbooks, Congress included requirements in the Higher Education Opportunity Act (HEOA) concerning publisher and school disclosures, as well as publisher provision of individual course materials. This report addresses (1) the efforts publishers have made to provide textbook information to faculty and make bundled materials available for sale individually, and how these practices have informed faculty selection of course materials; and (2) the extent to which postsecondary schools have provided students and college bookstores access to textbook information, and what the resulting costs and benefits have been. A Multimodal and
Ethnographic Approach to
Textbook Discourse Germán
Canale 2022-08-30 This book
offers a new framework for
analysing textbook discourse,
bridging the gap between
contemporary ethnographic
approaches and multimodality
for a contextually sensitive
approach which considers the
multiplicity of multimodal
resources involved in the
production and use of
textbooks. The volume makes
the case for textbook discourse
studies to go beyond studies of
textual representation and
critically consider the ways in
which textbook discourse is
situated within wider social
practices. Each chapter
considers a different social
semiotic practice in which

textbook and textbook
discourse is involved:
representation,
communication, interaction,
learning, and
recontextualization. In bringing
together this work with
contemporary ethnography
scholarship, the book offers a
comprehensive toolkit for
further research on textbook
discourse and pushes the field
forward into new directions.
This innovative book will be of
particular interest to students
and scholars in discourse
analysis, multimodality, social
semiotics, language and
communication, and
curriculum studies.
