College Textbooks Melissa Emrey-Arras
2013-07-11 The rising costs of postsecondary education present challenges to maintaining college affordability. Textbooks are an important factor students need to consider when calculating the overall cost of attending college. In an effort to ensure that faculty and students have sufficient information about textbooks, Congress included requirements in the Higher Education Opportunity Act (HEOA) concerning publisher and school disclosures, as well as publisher provision of individual course materials. This report addresses (1) the efforts publishers have made to provide textbook information to faculty and make bundled materials available for sale individually, and how these practices have informed faculty selection of course materials; and (2) the extent to which postsecondary schools have provided students and college bookstores access to textbook information, and what the resulting costs and benefits have been. Tables and figures. This is a print on demand report.

*A Multimodal and Ethnographic Approach to
Textbook Discourse* Germán Canale 2022-08-30
This book offers a new framework for analysing
textbook discourse, bridging the gap between
contemporary ethnographic approaches and
multimodality for a contextually sensitive
approach which considers the multiplicity of
multimodal resources involved in the production
and use of textbooks. The volume makes the
case for textbook discourse studies to go beyond
studies of textual representation and critically
consider the ways in which textbook discourse is

situated within wider social practices. Each
chapter considers a different social semiotic
practice in which textbook and textbook
discourse is involved: representation,
communication, interaction, learning, and
recontextualization. In bringing together this
work with contemporary ethnography
scholarship, the book offers a comprehensive
toolkit for further research on textbook
discourse and pushes the field forward into new
directions. This innovative book will be of
particular interest to students and scholars in
discourse analysis, multimodality, social
semiotics, language and communication, and
curriculum studies.
